

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

---	---	--

AIR-WARMING AND VENTILATING FURNACES.

JAMES G. DUDLEY,
243 Main Street, Buffalo, N. Y.,

Is prepared to set them in the most perfect manner, in any part of the country, in public or private buildings. They have received from eminent architects and scientific men throughout the United States, their HIGHEST and UNSOLICITED APPROVAL, and at the LONDON CRYSTAL PALACE, a PRIZE MEDAL, as the best apparatus exhibited for heating buildings. They are unequalled in power, economy, safety and durability. Particular attention is paid to thorough ventilation, and an evenly distributed and mild heat is produced without the noxious qualities of air usually found in buildings heated by other methods.

EMERSON'S PATENT VENTILATORS

Of various sizes, are used by us for ventilating flues, or for chimneys affected by change of winds. They are a sure cure for such troubles.

Plans and estimates for Heating and Ventilating, or for Ventilating alone, furnished on application.

ORDERS SOLICITED FOR JOB WORK

In Copper, Tin, Galvanized or Common Iron.

Work entrusted to J. G. D., in the city or at a distance, executed with promptness and in good style.

JAS. G. DUDLEY, 243 Main Street,
East side, near South Division St.

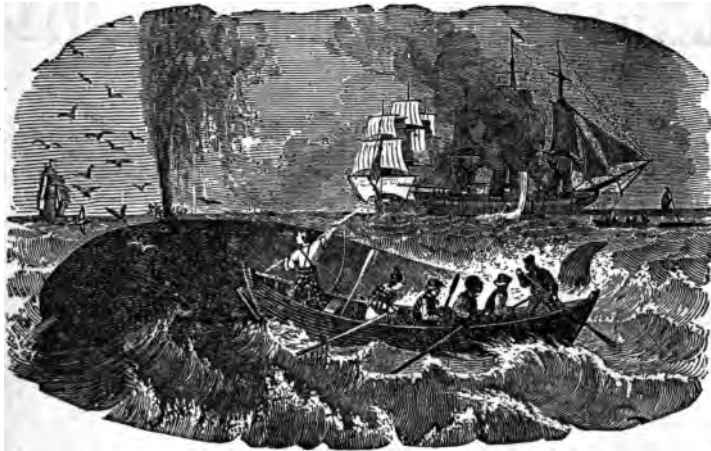

OIL. OIL. OIL.

F. S. PEASE,

WHOLESALE DEALER IN AND

Manufacturer of Oil

NO. 61 MAIN STREET, BUFFALO, N. Y.

The attention of dealers and consumers is called to the following list of

Pure, Fresh and Superior Oils

PURE SPERM OIL, winter & spring; **ELEPHANT OIL**, refin'd. bl'ch'd;
PURE OLIVE OIL; **WHALE OIL**, winter and spring, refined;
LARD OIL, winter and summer, strained;
LARD OIL, filtered and refined expressly for Druggists' use;
IMPROVED SIGNAL-LIGHT OIL, for Steamers and Railroads—a superior article for burning;
AXLE OILS, for Railroads;
DOPING and METALLIC OIL, for axles and heavy bearings;
TALLOW, Wool and Red Oil; **TANNER'S**, Bank and Seal Oil
LINSEED OIL, boiled and raw;
LARD and STEARINE, packed for use or shipping.

The above Oils are of **SUPERIOR QUALITY**, in every case **RELIABLE**, and offered at the **LOWEST MARKET PRICE**.

PEASE'S IMPROVED

ENGINE AND SIGNAL OIL

FOR RAILROADS, STEAMERS, PROPELLERS,

FOR EVERY CLASS OF MACHINERY, AND FOR BURNING,

Is Superior to Sperm or any other Oil whatever,

AND THE ONLY RELIABLE LUBRICATOR

That is a Superior Burning Oil, that will keep bearings cool and

WILL NOT GUM.

PRACTICAL TESTS PROVE THIS OIL TO BE 25 PER CENT. MORE DURABLE THAN SPERM OIL, for every class of Machinery, and for burning. Its merits are acknowledged in its long continued use on Railroads, Steamers and Propellers, in Machine Shops, Cotton and Woolen Factories, Saw, Grist and Planing Mills, Printing Offices, &c., and in no case has it failed to meet the approval of the consumer. Engineers and Machinists pronounce it *cheaper for burning and more durable for lubricating* than Sperm or any Oil whatever. "The Scientific American and Manufacturer's Journal," and others, after testing this Oil, pronounce it *superior* to any other for lubricating and burning.

MASTER MACHINIST'S OFFICE, MICHIGAN SOUTHERN RAILROAD.

F. S. PEASE, Buffalo:—In regard to the Oil manufactured by you, I am confident that you can not recommend it too high, as it will stand ANY TEST that it can be put to. Our road has always, heretofore, used the best Sperm Oil. For the last six months I have used your Improved Machinery and Signal-Light Oil, on the locomotives of this road, and it has given entire satisfaction. I also used it on the B. & R. division of the New York Central Road, about six months, with equal satisfaction. I can cheerfully recommend your Oil, after a test of SEVERAL THOUSAND GALLONS, as the CHEAPEST and most DURABLE Oil for railroad use, that I am acquainted with; and practical experience proves that it is saving from *ten to fifteen per cent over sperm* or any other Oil, for lubricating or burning, and IT WILL NOT GUM.

H. D. KENNEDY, Master Mechanic M. S. Railroad.

RAIL ROAD ADVOCATE OFFICE, NEW YORK.

For the past two weeks we have been burning the PATENT IMPROVED OIL, made by F. S. PEASE, of Buffalo, N. Y. From our short experience, we find this Oil to give a *powerful and steady light*, and to be capable of giving a large *volume of flame without smoke*. In our opinion it is an economical Oil, the quantity burned for the light produced being quite moderate. It is especially economical on account of its low price, it being *33 per cent cheaper* in price than *sperm*, to which its *quality* does not appear to be at all inferior. For Signal, Train and Station lights, we should pronounce this Oil to be every way adapted, both by its *excellence and economy*.

This Improved Oil possesses qualities vitally essential for lubricating and burning, and *found in no other Oil*. It is *33 per cent cheaper in price*, and will last *25 per cent longer* than the best Sperm Oil.

For sale only by the Inventor,

F. S. PEASE, Manufacturer and wholesale dealer in Oil,

No. 61 Main Street, Buffalo, N. Y.

Reliable orders filled for any part of the United States or Europe.

PREFACE.

In presenting this work to our patrons and the business community, we deem a few explanatory remarks necessary to this our first annual issue of the "*Buffalo Business Directory*." We have done all we could, considering the short space of time allotted, to render the volume which we now present to the public *valuable* and *acceptable* to *all*. The collecting of the matter for this volume has been attended with great labor and expense, and we trust and *believe* that any imperfections which may be discovered in the work will be overlooked by our patrons, to whom we pledge ourselves to make every improvement in our future issues which that best of teachers, "experience," shall suggest.

HUNTER & OSTRANDER,

Gen'l Advertising Agents, No. 7 Brown's Building.

N. B.—The Publishers cannot let this opportunity pass without expressing that they are under very many obligations to Mr. JOHN W. DEAN, foreman of the Job Office of the Democracy Printing Association, for the unwearied exertions he has made to bring this Directory thus early before the public. He has had the entire superintending of this work. The craft can easily see his fine taste and superior workmanship, by casting their eye through the book. He is not only a superior workman, and industrious in his profession, but in every respect shows a gentleman of merit.

1855. **Great Central Route.** 1855.

Michigan Central

RAILROAD LINE.

Buffalo ^{OF} Detroit & Chicago

MILWAUKEE, KENOSHA, RACINE,

WAUKEGAN, ST. LOUIS, AND ALL IMPORTANT POINTS WEST.

The following 1st class Steamers form the line between Buffalo and Detroit.

WESTERN WORLD,

L. H. COTTON, COMMANDER,

Leaves Buffalo every Monday and Thursday Evening.

PLYMOUTH ROCK,

J. H. BAKER, COMMANDER,

Leaves Buffalo every Tuesday and Friday Evening.

BUCKEYE STATE,

S. C. ANDREWS, COMMANDER,

Leaves Buffalo every Wednesday and Saturday evening.

One of the above Steamers will leave the Michigan Central Railroad Dock, foot of Erie Street, Buffalo, daily, (Sundays excepted,) at 9 o'clock P. M., or immediately after the arrival of the Express Trains from the East.

Direct through to Detroit via North Shore without landing, reaching Detroit next day, in time to connect with the Lightning Express Train over the Michigan Central Railroad.

For Transportation of Freight of all kinds, this line possesses unusual facilities, and for promptness and dispatch, cannot be excelled. The Boats, for Freight capacity, are not equaled on inland waters. All Packages marked to the care of C. L. SEYMOUR, Freight Agent, Buffalo, will be forwarded the same day that they are received.

Mark packages plainly, "Care C. L. SEYMOUR, Freight Agent, Buffalo."

Through Tickets can be obtained at all the principal Railroad and Steamboat Offices east, at the offices on board the Steamers, and at the office of the Michigan Central Railroad Line, foot of Erie street, Buffalo.

CHARLES E. NOBLE, General Ag't.

WM. P. DOWNER, General Eastern Traveling Agent.

A Word to You

BY

NO MATTER WHO.

Yes, sir, you're the very man I want to see. You never advertise, hey? Don't believe in all this puffing and fuss. Always depended upon the quality of your work, integrity of your character, promptness and all that.

Stop a moment; just let me take you by the button and tell you something worth your knowing. Did you ever think what an *ungrateful* fellow you have been? How so? Why, man, are you not entirely dependent upon the patronage of neighbors for your support and wealth, upon their good will for your comfort and happiness, upon them altogether for all there is of you that's worth having or being at all? Yes, sir, you ought to return them something for it. But you are only laughing at their misfortune and losses by the imposition of suffering and lying quacks. You could give them a good article, worth their money, and you would attend faithfully to any thing they entrusted you with. All well, all well, sir; but surely you owe enough to society at least to take the trouble to tell them of it. You needn't brag—or lie—or puff—but you're an ungrateful man not to let your deceived and suffering neighbors know where they might be honestly dealt by.

Don't run, don't run. I mean to tell you the truth, and talk to you just like a Parson. Stop and hear secondly. Secondly is, that you are an abominably *lazy* man. Think I heard you say, you "can get as much business as you want without blowing your trumpet." That is your own perversion of advertising. If others do it wrongly you ought to do it rightly. Now, don't "blow your trumpet," but just let your neighbors know where a good, honest dealer is to be found, engaged in a lawful and beneficial occupation or profession. If you are doing any thing that you ought to do, your business is useful to others. If it is useful, you ought to do as much of it as you can. But you have enough, as much as you want. Ha! ha! Then all you care for is, to eat and drink, and if your mouth be only full, and your back clothed, and your house warmed, you have nothing more to ask for. Pretty style of character that, isn't it? No, no, sir; don't cheat yourself so. We have told you you owe something to society, and are ungrateful if you don't pay it,—now rise up, like a man, out of your lazy dream of meat, clothing and roof, and for the good of society, let society know what you can

and will do for them. Advertise; get business; do all you can, and show due honesty and industry simply by doing what you publish you will. Advertise, and when the stream comes, as it will, off coat, roll up your shirt sleeves and meet it.

Hold on! not quite through yet,—thirdly is on hand, all ready, and not “gone through the east window,” either. Just look a moment, what a *selfish* man you are. Didn't you ask, “What need of so large a business or fortune?” My dear man, how you have pulled the wool over your eyes and fancied yourself a perfect pattern of contentment, whom all your neighbors ought to follow. What need? What need? Can't you look further than your own mouth and door to find any use for money. True enough, what do you want of money, if you can't see that it's worth earning to feed some poor hungry family, whose father is sick or dead, whose little feet are only big enough yet to tread on mother's dress and keep her from working. Suppose you were to advertise a little, get large business, keep a good eye out to windward against tom-foolery and display in your living, and appropriate the profits to educate one of those youngsters. There's something worth working for. That you ought to love to do, and that you can get more means to do by advertising.

I'm glad to see you're getting interested, so I'll give you one more head than our modern Parsons are allowed. This brings us to *fourthly*, and that is, you are the *proudest* man I have met this many a day. Give and take is the law of God himself over us. All the beauty of our social life is gendered and guarded by it. Now, you ungrateful, lazy, selfish specimen of mock-modesty and haughty humility, want to *take* all, use and enjoy all, give nothing back; eat, drink and take your fill at the cost of society at large, laugh at your neighbors where quacks dupe them, and when (as you deem them) the poor fellows look around for some little relief, or would like to know where they can be more kindly treated next time, what do you give them? A nose turned. “Humph! I could have told you so,” or perhaps a cold, wicked, “let them find me out.” Now, if that isn't a most terrible pride just show me where to find it.

Now, I have done you some good; you know yourself better; you see your bad ways in a clear light; you own up. I won't be hard on you in the application. I'll let you off on this penance. As you have learned this good lesson *here*, just have the conscience to remember that the first obligation is due to the friend who helped you. Therefore, finally, and in conclusion: Out with your memorandum book, and copy, in a good, fair hand, so that your book-keeper will make no mistake, “One card, to be sent *early*, for——pages of Buffalo Business Directory for 1856, published by those excellent fellows, Hunter & Ostrander.” That will be your A No. 1 notice. They will advertise for you according to your desires and interests, in as many as you please of some 800 good business newspapers, with which they have concluded arrangements.

GALE'S EAGLE FEED-CUTTER.

SOLD BY
PRATT & CO., Nos. 28, 30 & 32 Terrace St., BUFFALO.

Above is a cut of "*Gale's Eagle Cutter*," a machine combining strength and simplicity in so great a degree that it must commend itself to every man at a glance. A strong straight knife is attached to the lower cylinder, and a strip of hide to the upper; the two are geared together, and as they rotate, grasp the feed, draw it forward, and cut it off—cutting through from 3 to 5 inches of feed at each revolution, doing its work with the greatest ease and rapidity, and cutting cornstalks, either wet or dry, with equal ease as hay or straw. There is no chance for clogging; it is self-feeding, and cuts the feed from five-eighths to one inch in length. This, we think, is the most perfect cutter yet made, it is so simple that any farmer can repair it; and instead of a hide roller, which, to replace when worn out, costs from two to three dollars, we have but a strip of hide, which costs from twenty to thirty cents. The knife any smith can make.

These cutters are offered to the trade with the utmost confidence, and are warranted to work well.

We have already sold a great many, and in every instance they have given perfect satisfaction; and we have no doubt they will soon take the place of all cylinder cutters.

Elements of Success.

USEFUL HINTS FOR BUSINESS MEN.

Men of genius, without endurance, cannot succeed. Men who start in one kind of business may find it impossible to continue therein all their days. Bad health may demand a change. New and wider fields of enterprise and success may be opened to them. New elements of character may be developed. Men may have a positive distaste for some pursuits, and success may demand a change. None of these cases fall within the general rule. Men may have rare talents, but if they "are everything by turns, and nothing long," they must not expect to prosper.

No form of business is free from vexations. Each man knows the spot on which his own harness chafes; but he cannot know how much his neighbor suffers. Life is not long enough to allow any one to be really master of but one pursuit. The history of eminent men in all professions and callings proves this.

DANIEL WEBSTER was a great lawyer. His boyhood was marked only by uncommon industry; as a speaker he did not excel in early life. With great deliberation he selected the law as his profession, nor could he be deterred from his chosen pursuit. While a poor student, not the tempting prize of fifteen hundred dollars a year, as Clerk of the Courts, then a large sum, gained with great difficulty for him by the zeal and influence of his father, nor could all the persuasions of the father, turn him from the mark he had set before him.

Our late distinguished Ambassador at the Court of St. James, Hon. ABBOTT LAWRENCE, can recall the time when he had his profession to select, and the first dollar of his splendid fortune to earn. He chose deliberately a calling; he pursued that occupation with integrity and endurance, through dark days and trying seasons, and the result is before the world. A man "diligent in his business shall stand before kings."

The late JOHN JACOB ASTOR, as he left his native Germany, paused beneath a linden tree not far from the line that separated his native

land from another, and, made three resolutions which he intended should guide him through life: "1. I will be honest. 2. I will be industrious. 3. I will never gamble." He was on foot. His wealth was in the small bundle that swung from the stick laid on his shoulder. The world was before him. His success is the best comment on his endurance.

STEPHEN GIRARD, at the age of 40 years, was in quite moderate circumstances, being the captain and part owner of a small coasting vessel. No trait in his character was more marked than his endurance, and this element gave him his immense fortune.

All men who have succeeded well in life have been of high resolve and endurance. The famed WILLIAM PITT was in early life fond of gaming. The passion increased with his years. He knew that he must at once master the passion, or the passion would master him. He made a firm resolve that he would never again play a game of hazard. He could make such a resolution; he could keep it. His subsequent eminence was the fruit of that power.

WILLIAM WILBERFORCE, in his earlier days, like most young men of his rank and age, loved the excitement of places of hazard. He was one night persuaded to keep the faro-bank. He saw the ruin of the vice of gaming as he never saw it before. He was appalled with what he beheld. Sitting amid gaming, ruin and despair, he took the resolution that he would never again enter a gaming house. He changed his company with the change of his conduct, and subsequently became highly distinguished.

Dr. SAMUEL JOHNSON was once requested to drink wine with a friend. The Doctor proposed tea. "But drink a *little* wine," said his host. "I cannot," was the reply. "I know abstinence—I know excess; but I know no medium. Long since, I resolved, as I could not drink a *little* wine, I would drink not at all." A man who could thus support his resolution by action was a man of endurance, and that element is well displayed in this incident as in the combination of his great works.

When RICHARD BRINSLEY SHERIDAN made his first speech in Parliament, it was regarded on all hands as a most mortifying failure. His friends urged him to abandon a Parliamentary career, and enter upon some other field better suited to his ability. "No," said SHERIDAN—"no; it is in me, and it *shall come out!*" And it did, and he became one of the most splendid debaters of his time.

OSBORNE'S IMPROVED THERMOMETER CHURN.

Sold by PRATT & CO., 28, 30, 32, Terrace, BUFFALO.

This churn has two bottoms made of Sheet Zinc. The cream or milk rests upon the upper one, and the lower one is placed so as to leave a space of about two inches between the two, and into this space is introduced the cold or hot water, which brings the cream to the right temperature without mixing the water with the cream. The water may be drawn off at any time from an orifice in the side of the lower chamber, and water either colder or warmer substituted, as the case may require.

A thermometer, marked at 62 degrees, that being the proper temperature, is permanently fixed in one end of the churn, and protected by a metal slide. The dash is easily removed for the purpose of cleansing. This churn is light and portable, easily worked, durable, sells well and gives good satisfaction.

DIRECTIONS.

After the cream has been in the churn a minute or so, examine the thermometer, and if it stands at the mark (62 degrees) it is all right—go ahead. But if the mercury stands *below* the mark, the cream is too cold, and warm water should be introduced into the chamber, occasionally stirring the cream; and when the mercury is up to the mark, draw off the water, and go ahead. If the mercury stands above the line, the cream is too warm, and cold water should be introduced into the chamber and allowed to remain until the mercury falls to the line; and if the weather is very warm, it will be as well to let the cold water remain in the chamber to keep the cream cool, as the process of churning *always* raises the temperature a few degrees.

Sometimes after using warm water, the butter has a tendency to stick to the zinc bottom; this is remedied by introducing into the chamber a little cold water just before the butter is gathered.

To gather the butter, work the crank to and fro for a short time.

The churn should not be filled above the crank. You can, if you choose, remove the dasher and work the butter in the churn.

CHAIN PUMPS.

Sold by PRATT & CO. Terrace Street, BUFFALO, N. Y.

CURBS.—See next page.

SPOUTS.—Open Iron Spouts, for Wooden Well Curbs, being attached to the *inside* of the Curb, and the Round Iron Spout which is screwed to the *outside* of the Curb.

REELS.—We offer best qualities Pump Reels, and of the most approved patterns, with from 8 to 16 forks, with intermediate bearers to keep the chain in position.

GALVANIZED PUMP CHAIN.—This non-corroding article constantly on hand, of the very best quality, and in any quantity.

WOOD TUBING of best quality furnished to order.

ZINC TUBING.—A new and important improvement upon the Wood Tubing formerly in use, which obviates the only objection to the Chain Pump, viz: that the water is rendered impure by the friction of the buttons on the sides of the Wood Tubing. This tubing is more easily transported and adjusted than the wood, being made of heavy zinc, in sections, and put together without difficulty, so perfectly as to require no solder at the joints. It is fastened to narrow plank, and easily placed in position in the well.

This cut exhibits a section of a Well complete, showing the adjustment of the whole; and establishes at sight the claim of this Pump to great *Simplicity, Neatness and Perfection.*

Orders for Chain Pumps complete for any depth of Well, or for any part or portion thereof, as enumerated above, will receive immediate attention.

CHAMPLIN'S XYLOPHLORIUM

OR

Ne plus ultra Hair Invigorator and Restorative.

For Preserving, Restoring and Beautifying the Hair—to prevent its Falling off or turning Gray.

This article is, without question, the very best article that has yet been produced for creating a healthy action of the Scalp, to prevent Baldness, aid the Growth of the Hair, and render it soft and lustrous. It will positively improve, restore, cleanse and embellish the hair; and we assert, without the power of contradiction, that "Champlin's Xylophlorium" will always reproduce new hair upon bald heads, *where any vitality exists at its roots*. The power of reproducing new hair upon bald heads has its limits [and the proprietor of the "Xylophlorium" has not the vanity to assert that his preparation will go beyond that limit]; but where, from neglect or improper treatment, the head has become bald, and a life yet exists at the roots, which can be excited to a second growth, then the "Xylophlorium" will positively produce that second growth; and by its use that most noble of Nature's ornaments will be restored. But it should be borne in mind, that were the heads or parts of it entirely nude, then, under the most favorable circumstances, its restoration is the work of time; patience, and perseverance in the use of the remedy will only produce the result; and that result will be most positively produced, where, as is before said, *any vitality exists at its roots*.

The chief virtues of the "Xylophlorium," or Ne plus ultra Hair Invigorator and Restorative, are:

- 1st.—Its bracing, strengthening and cleansing properties.
- 2d.—Its producing and encouraging a reaction in the bulb or root, and particularly in the pulp, which receives the vessels and nerves giving life and vigor to the hair.
- 3d.—Its equalizing the circulation of the fluid.
- 4th.—Its freeing the skin from the effects of perspiration, scurf and dandruff, and disposing the hair to curl.

5th.—Its frequent use will preserve the hair in beauty and health to the latest period of life.

Ladies will find the "Xylophlorium" the most cleansing, beautifying auxiliary, when dressing their hair, ever used. It clears the skin and keeps the parting of the head clean, and imparts to the hair an elegant, glossy, silky moisture, and is infinitely better than oil or grease for the hair; it causes a healthy action of the blood-vessels, nerves, &c., which free the hair, thereby preventing baldness and grey hair; entirely frees the skin from dandruff, scurf and other cutaneous diseases; disposes it to curl, and keeps it so; and will positively change the hardest hair into the most soft, healthy, glossy state, and also imparts to it a dark color.

Ladies will also find the "Xylophlorium" a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the "Xylophlorium," can be dressed in any required form, so as to preserve its place, whether plain or in curls.

Thin hair is soon made thick by its magic power, and wigs are rendered useless.

What it has done for the Hair.

- One to three bottles have Stopped the Hair from Falling Off.
 - One to six bottles have Caused the Hair to Grow in Bald Places.
 - One to four bottles have Removed Dandruff, and Prevented it in the Hair.
 - One to two bottles have Made Harsh and Dry Hair beautifully Moist and Rich.
 - One to three bottles have Cured Scurf, and the worst diseases of the Scalp.
 - One to two daily applications have Made the Hair Curl Richly.
 - One to two daily applications have Given the Hair a Beautiful Appearance.
 - One daily application to Children's heads has laid the foundation for a good head of Hair.
 - One daily application to Whiskers has given them a Dark and Rich Appearance.
 - One daily application has Prevented the Hair from Turning Gray.
 - One daily application has Given Flaxen Hair a Beautiful, Dark Appearance.
- It has never been known to grease or soil the finest fabric coming in contact with the hair after its use.
- It is extensively used by the Ladies!
 - It is extensively used by Professional Men!
 - It is extensively used by Merchants!
 - It is extensively used by Mechanics and Laboring Men!
 - It is used by everybody, and all speak its praise!
 - And it is sold in large bottles at the extraordinary low price of *Twenty-Five Cents per Bottle*, by Druggists and Fancy Goods Dealers everywhere.

O. H. P. CHAMPLIN, Proprietor,

290 Main St., Corner of West Eagle, Buffalo, N. Y.

DOWN S & CO'S
IRON CURBS FOR THE CHAIN PUMP.

Sold by PRATT & Co., Terrace Street, Buffalo, N. Y.

These Cuts represent two styles of IRON CURBS, offered by us, for the Chain Pump. They are a most admirable and complete device, combining *ornament* with *utility*, and are without a rival in the market.

Having been before the community for more than two years they have become generally known, and from actual test have continued to grow more in favor and demand, and need only to be seen to secure a ready approval.

These Curbs are composed of open net work at the top, for proper ventilation of the Well, and are compact, durable and beautiful articles.

Orders solicited and promptly answered.

WHITCOMB & GIFFING, DENTISTS,

196 Main Street, opposite the Metropolitan Theatre,

BUFFALO, N. Y.

N. W. WHITCOMB,

J. H. GIFFING.

Boots and Shoes.

He who is not well shod is subjected to many difficulties. His locomotion is impeded; his feet are liable to be torn by nails, bruised by pebbles and wounded by fragments of glass and crockery; and besides, he is apt to lose the favor of the fair, in whose creed of beauty a neatly booted foot is an essential requisite. Men who call upon M. T. MARIE, T. G. SHOLES, J. P. KLINE, or WALTER S. ABBOTT, will not be subject to the evils we have mentioned. They are all capital workmen and will all please their customers.—*Publishers.*

Cabinet Makers.

Among the most extensive of our Cabinet Manufactories, we may name that of R. HART & Co., which is situated on the Black Rock road. These gentlemen turn out vast quantities of work every year, while their articles are warranted to be of pure stuff, well put together. They send much of their work to the Great West. That it gives satisfaction may be seen from the fact that dealers to whom they sell are constantly imitating Oliver Twist—that is, wishing for more.

HERSEE & TIMMERMAN, also, are heavy manufacturers, and have one of the finest establishments in the city. So with CUTLER & DEFORREST. ISAAC D. WHITE is another dealer, and has an establishment almost as large and well nigh as attractive as the Crystal Palace. TAUNT & BALDWIN, too, manufacture heavily, and show big figures every new year. W. & H. HERSEE are in the same line, and deserve the success which is daily crowning their efforts.—*Publishers.*

Coffee and Spice Dealers.

To those who love a good cup of coffee, and are fond of adding spice to their existence, we would cordially recommend the store of BRADFORD & CHASE.—*Publishers.*

Iron Fence Builders.

EDDY & BINGHAM, GEO. JONES and W. LEAK may be named under this head. Either of them will give good satisfaction to any customer.—*Publishers.*

DR. S. S. FITCH advertises in this work, a Supporter Truss, of his own invention, which may be relied upon by the afflicted with full confidence. The Doctor has spent much time in bringing it to perfection, and that he has succeeded is proved by the fact that he is constantly receiving testimonials to its efficiency. DR. FITCH also employs the new system of Medicated Inhalation, in connection with other medical remedies, a system which is now attracting much attention. He is famous for his cures, especially in cases of consumption.—There is scarcely a city, village or town to be found, in which his skill has not been made manifest. The afflicted should by all means consult Dr. F.'s advertisement. We can, by experience, heartily recommend him to any one who is consumptive, or troubled at all with lung difficulties, and if his remedies do not cure or help, it is vain to try elsewhere.—*Publishers.*

MR. H. UTLEY has recently erected a splendid establishment on Pearl Street, above Seneca, which is a monument to his industry, and where he keeps an immense assortment of Cabinet Makers' and Upholsterers' Hardware, and other material, Fancy Woods, Pianos, Melodeons, etc. We are glad to see such a man succeed. Those in want of aught in his line, will find here a comprehensive stock from which to select, at prices which cannot fail to please them.

Steam Engines, &c.

SPALDING'S Machine Shop, at Lockport, Niagara County, N. Y., is celebrated for the excellency of articles there manufactured. These manufactures comprise Saw Mills, Shingle Machines, Lathes, Bed Rail Machines, Bran Dusters and Separators, Stave Jointers and such like.—Those in want of any of these items can easily go further and fare worse, if they choose.—*Publishers.*

Dealers in Marble, &c.

GEO. O. VAIL & Co., are wholesale dealers in American and Italian Marble, Roofing Slate, Floor Tile, etc. They will promptly obey all foreign and local orders, and pledge themselves to give satisfaction.—They receive their material from the best quarries in the country, and take especial pains to please all who favor them with patronage. See advertisement.—*Publishers.*

Tobacconists.

The heaviest of our Tobacconists, are ADAMS, ATHEARN & Co., who have the reputation of manufacturing as choice tobacco—plug and fine cut—cigars and snuff, as any firm in the United States. Their articles are not only in great demand with our own citizens—such as indulge in narcotics—but are ordered in large quantities by foreign dealers. They use the pure leaf, eschew new cut quids and “old soldiers,” and thus preserve their reputation and their self respect. They may be relied upon with implicit confidence.

J. S. COMBS & Co. are in the same business. They keep an excellent assortment on hand, and pride themselves upon having their numerous customers always satisfied. To this end they set their faces against “adulteration” in any shape or form, and only deal in the “pure stuff.” Chewers, smokers, snuffers and traders may safely trust in them.

LOCKROW & HART, P. JACKSON and RAUSCHENBERG & BROTHER, also merit honorable mention. They are all dealers of good repute, and may properly be commended to public favor.—*Publishers.*

The Clipper Line.

This line, which is composed of some of the finest brigs and schooners on the lakes, is controlled by WATSON A. FOX, one of our first commission merchants. The line is perfectly reliable, and those entrusting goods to the care of Mr. Fox may rely upon promptness and dispatch. No matter whether the consignment be a box of soap or a locomotive, the same pains will be taken to “put it through” in double quick time. The Clipper Line is all that its name would seem to indicate.—*Publishers.*

Refrigerators, Stoves and House Furnishing Goods.

We had prepared, at first, to make several distinct notices in regard to the gentlemen engaged in the above business; but upon thinking the matter over and comparing their respective merits, we have concluded to individualize, would be invidious. This is an important business, anywhere—it is made particularly so in this city—engaging a large amount of capital, and the attention of some of our first men.—Among these may be named DUDLEY & BULL, JAS. G. DUDLEY, JEWETT & DAY, PARMELEE & HADLEY, JEWETT & BROTHERS, SIDNEY SHEPARD and RICHARD SCOBELL, who manufacture an almost fabulous amount of articles yearly, and whose trade extends over the whole United States. They each have a style peculiar to themselves, but in the opinion of those not qualified to judge, there is little to choose between them. People love to keep cool in summer and warm in winter, and love to have their house well furnished. To answer these desires in the most effectual manner, the gentlemen named do put forth their best endeavors. It is a treat to pass through either of their establishments, whether curiosity or a desire to make a judicious investment is the impelling motive.—*Publishers.*

Patent Candle Moulding Machine.

We refer with pleasure to this complicated machine for manufacturing candles. It possesses qualities that are not equalled in any other. It saves labor and turns out more work than any other machine. It was patented last 1st March 1855, and Mr. JOHN STAINTHORP, is the Patentee. He has united with him Mr. KITTLE, a worthy and esteemed citizen of Buffalo, for the manufacturing of them, as his orders from all parts of the country, are so numerous, it requires the constant exertions of two men to supply the great demand. We know them to be used to a great extent in this city and vicinity by those who have discontinued the use of others. An examination of this Machine is all that is required to satisfy any one its advantages over other Moulding Machines. Mr. K. has his office over SAGE & SONS Music store, 209 Main st. By calling upon him, he will treat you cordially, and you will find him an honest and upright adviser.—*Publisher.*

Evart's Patent Shingle Machine.

We wish we had time to go into the full explanations of this machine, in order to do it justice, but our space and time will not permit us to say more than this—There is no other machine of the kind that has the confidence of the community. Its patentee resides in Chicago, and all orders addressed to him there, through the Post Office, Box 292, will receive prompt attention. See advertisement.—*Publishers.*

Compton's Photographs.

R. J. COMPTON, the celebrated Lithographer and Engraver, has lately opened a Photograph Gallery, in connection with his establishment, where those who wish to see themselves as others see them, can be accommodated. The Photograph pictures are cheaper, more life-like and more enduring than Daguerreotypes, and possesses this additional advantage—that any number of copies can be taken from the result of a single sitting. No man who wishes to transmit his "counterfeit presentment" to posterity should fail to engage the services of COMPTON, who has superior facilities for operating in this new and interesting hand of Art. Mr. COMPTON, together with his array of artists, are all gentlemen of a high order, and we are glad to see that they command the admiration of all that know them. See advertisements of the above mentioned business.—*Publishers.*

Lithographing and Engraving.

MESSES. MOONEY & BUELL are gentlemen of acknowledged talent in these useful and advancing arts, as may be seen by a glance at their specimens.—They possess the confidence of the public, and are building up a flattering reputation. In this connection we notice that the wood engraving of Mr. WIGHTMAN; specimens of his work may be seen in this Directory. He is perhaps the best Wood Engraver we have in this city. We are glad to see that the good reputation of his business, extends far and near.—*Publishers.*

Dry Goods.

Buffalo can boast of more superior establishments in the way of Dry Goods than any similar city in the Union. No one who visits the stores of FARNHAM, SMEDLEY & KENDALL, HOWARD, WHITCOMB & Co., G. C. COIT & SONS, R. J. & R. D. SHERMAN, W. B. BISHOP, O. B. TITUS, MARVIN, CLARK & Co., EVRY & MCPHERSON, MURRAY & CUMMING, TOD & EVANS and HAMILTON & ADAMS, can find any cause of complaint, as regards either quality or quantity. These firms keep pace with the times, make it a point to supply themselves with the newest and most fashionable styles, and do not elevate the prices of their goods beyond a fair living profit. We can heartily commend each and all of them to public patronage.—*Publishers.*

Candle Manufacturers.

MESSES. THAYER & BROWN obey the injunction "let your light shine" as faithful as any body we know. Their candles are sought for by our citizens with an eagerness that proves they possess superior qualities—indeed the proprietors have yet to hear any complaint in regard to them. They also deal in various oils.

EDWARD COWLES, is also a successful manufacturer. His candles give excellent satisfaction. We must not forget S. HUME & Co., in this connection—who are also prepared to "enlighten the dark places," in a scientific and thorough manner. Let's see—is there not one more? Oh, yes: J. P. PROVOST & Co., as cheap as the cheapest and as good as the best. "Let there be light." See the gentlemen's advertisements spoken of above, and make a note of their place of business.—*Publishers.*

Bellows Makers.

Those who wish to "raise the wind" perfectly and triumphantly, should call on VOAS & WARD, who get up a superior article of bellows. Artisans supplied with mammoth bellows, and housekeepers with pigmy ones.—*Publishers.*

DELANEY'S
NIAGARA STEAM FORGE.

PRATT & CO., SOLE AGENTS,
Nos. 28, 30, and 32 Terrace Street, BUFFALO, N. Y.

THIS ESTABLISHMENT is prepared to manufacture all kinds of heavy forgings and hammered shapes—such as Car Axles, fagoted from the best scrap iron, Steamboat and Propeller Shafts and Cranks, Connecting Rods, Piston Rods, Locomotive Frames, Pedestals, Cranks, Wrought Driving Wheels, Screw Bolts of all sizes, and every description of Heavy Blacksmithing.

Having the latest improved machinery, consisting, in part, of a Nasmyth's Patent Direct-Action Steam Hammer of four feet fall and 5000 lbs. weight, one Watt's Patent Steam Hammer, three of the most approved Trip-Hammers, with the necessary Steam Power and Machinery for driving these and other similar tools, and making our own iron of the best "all scrap" quality, of the finest texture and greatest tenacity; we are able to furnish all work in our line, of the very best quality, at the lowest rates, and at the shortest notice.

PRATT & CO.

IMPROVED STEAM ENGINES.

The Steam Engines manufactured at

SPALDING'S MACHINE SHOP, LOCKPORT, N. Y.

Are running Gang and Single Saw Mills at that place, by using the Saw Dust and worthless fuel, thus making a Steam Saw Mill preferable to a Water Mill, as the motive power does not cost so much as the site, dam, &c.

Circular Saw Mills complete, ready for the belt, warranted to cut a 16-foot board, without stubshot, in twenty seconds.

Schuyler's Muley Saw Mill. **Schuyler's Improved Geared Rotary Feed**, superior to the old fogg notch feed, and cheaper. The Saw with this feed never loses a cut, thus gaining from 10 to 15 boards in every 100.

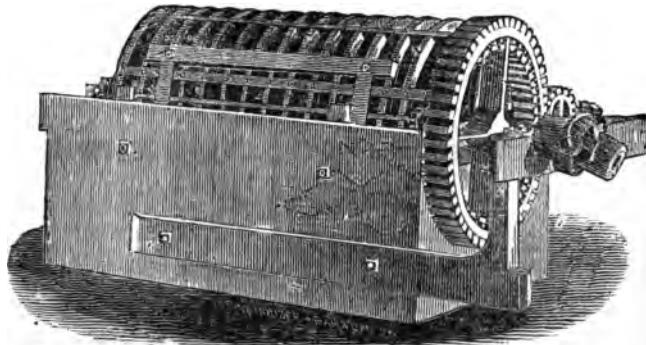

Judson's Governor Valve, an invaluable regulator for the Steam Engine, causing it to run at the same speed through the day, whether loaded or not.

Nicholson's Shingle Machine, for sawing Shingles, the best machine in use. It will cut 1000 shingles per hour for ten hours in succession. Price, complete, with jointer, \$150.

Baily's Broom Handle Lathe, Self-centering and Self-releasing—used for Rake and Hoe Handles Chair Stuffs &c.—the best Lathe in America—warranted to do twice the work of any other in use. Price, \$100 to \$125, complete. Chair Chucks, &c.

Baily's Bed Rail Machine, for turning and tenoning square timber—eight hundred pieces in ten hours turned ready for the screw. Hollow Augers for turning Fence Lickets.

Morse's Air Distributor, for burning Saw Dust, Tan, or other fine fuel, for generating steam or heat.

Spalding's Improved Horizontal Bran Duster and Separator.

Millers make a great saving by using this valuable machine. In most Mills now running without Dusters, enough flour goes with the offal to pay the wages of every hand and miller employed in the mill. Much loss is sustained by not dividing the fine from the coarse offal. This machine does it very perfectly. Price, from \$100 to \$175, according to length—from 2½ to 4 feet.

The Improved Stave Jointer, by which 5000 flour barrel staves per day are jointed by one man, with his foot. Ready for use—price, \$50.

Heath & Waite's Rotary Grain Separator, for Flouring Mills, superior to any Separator in use. Price, \$85, \$110, \$150.

Having the patterns for the largest Flouring, Gang and Single Saw Mills in this country, with all the recent improvements, orders for any kind of Machinery or Castings usually wanted can be executed on very short notice and reasonable terms.

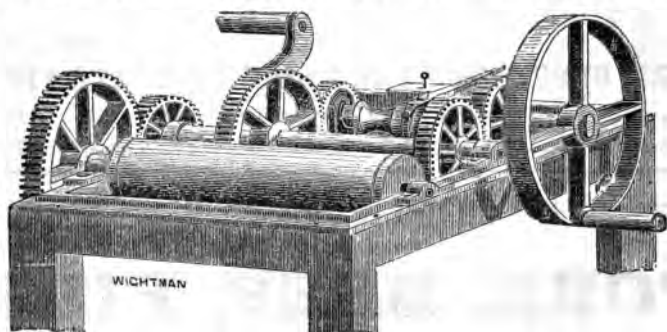

All kinds of Castings usually found at Foundries kept on hand, such as Pot Ash Kettles, Coolers, Plows, both Iron and Wood beam, of superior construction, &c. &c.; Rubber and Italian Hemp Packing; Rabbit Metal; Brass and Composition Castings to order; Tin, Copper and Sheet Iron Ware in great variety.

Orders addressed to ALEX. POUND or L. A. SPALDING, Lockport, N. Y., will receive prompt attention.

IMPROVED
HOISTING MACHINES,

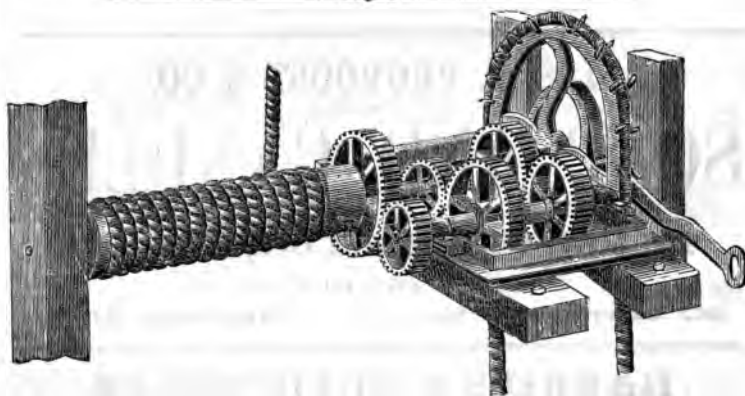

MANUFACTURED FOR AND

Sold by PRATT & Co., 28, 30, 32 Terrace St., BUFFALO.

DOCK HOISTING MACHINE.

One size, adapted to handling freight, loading and unloading boats, vessels, &c., represented above. Price \$65.00.

WAREHOUSE HOISTING MACHINE.

Two sizes, adapted to handling goods, lowering and hoisting in stores, warehouses, &c., represented in cut next above.

PRICES:—No. 1, \$60.00 — No. 2, \$50.00

These Machines are fitted with breaks complete, and are, without question, the most powerful, compact, durable, and economical Hoisting Machines now in use.

ON THE CASH SYSTEM.

The increasing demand for Good Furniture at a low price, has induced a still further enlargement of this Establishment, by carrying up the buildings on Main Street, and extending them through (200 feet deep and 5 stories high) to Washington Street. These are the largest Ware-rooms in the State. They embrace Nos 197, 199, 201 and 203 Main Street, running through to Nos. 210

and 212 Washington Street. Main Entrances, 203 Main and 212 Washington Streets. Here may be found the

Largest, Cheapest, and Best Assortment of Plain and Elegant

NEW STYLE

CABINET FURNITURE

EVER BEFORE OFFERED.

Embracing almost every article that can be named; among which are Mahogany and Rosewood Sofas, Te'e-a-tetes, Divans, Ottomans and Lounges, covered in Brocade, Plush, Damask, and Hair Cloth, at prices varying from \$6 to \$150 each. Patent Premium Sofa Beds, Patent Self-rocking Cradles, Patent Spring Bed Bottoms, of all the latest improvements. Also, Patent Re-cumbent Extension Easy Chairs, of all kinds. Rocking, Sewing, Easy, and Common Chairs. Over 110 different patterns of Mahogany, Rosewood, Walnut, Oak, Maple, and Fancy Painted, at prices varying from 35 cents to \$80 each. Also, a great variety of Book Cases, Bureaus, Com-modes, Sideboards, Wardrobes, Bedsteads, Tables, Stands, Hat Racks, Piano Stools, Music Racks, Corner Stands, What-nots, &c., &c.

OFFICE FURNITURE,

CHAIRS, DESKS, &c.

Painted Bedroom Sets, at prices varying from \$30 to \$150. Upholstery Goods, Curled Hair, Cotton and Palm Leaf Mattresses, Bolsters, Pillows and Cushions. Looking Glasses at Manufacturers' prices.

Cabinet Hardware and Upholstery Materials for Sale to the Trade.

Having largely increased manufacturing facilities, it is my purpose, by a large increase of business, to sell at a reduction on former Low Prices, while the quality of the work will be maintained as heretofore unrivalled. Every article sold will therefore be warranted to be properly made and of good materials.

FURNITURE MADE TO ORDER.

Repairing, Boxing and Packing done in the best manner and on the most reasonable terms.

Any one can understand that the CASH SYSTEM does not require large profits to make up losses by bad debts, and those who wish by paying cash to obtain a good article, and save from 20 to 50 per cent, are respectfully invited to give me a call.

BORING MACHINES.

Sold by **PRATT & CO.** Terrace Street, **BUFFALO, N. Y.**

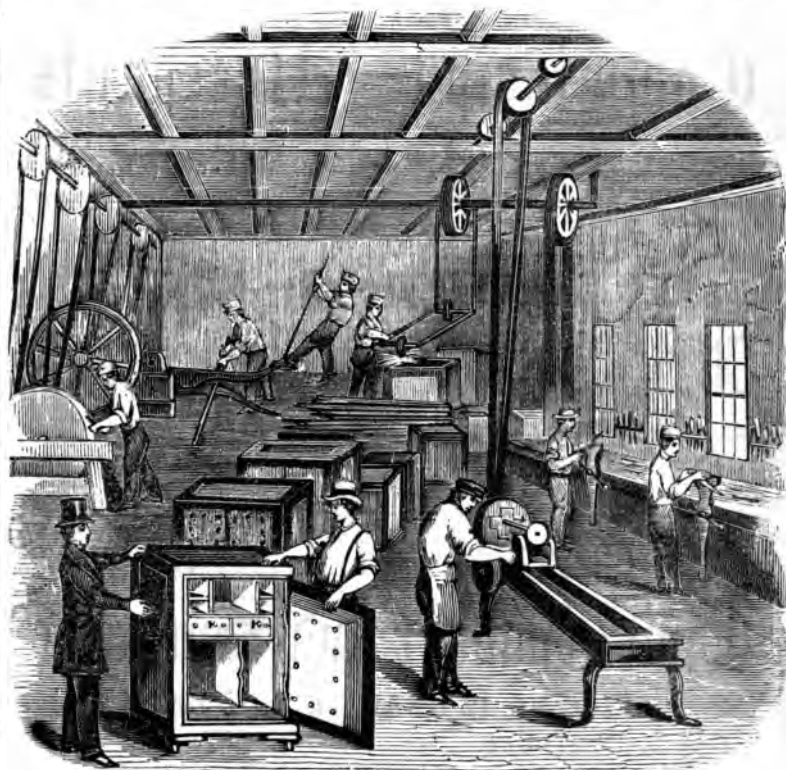

Any machinery which comes to the aid of builders in their laborious work, will always find a ready sale, and more especially when it can be worked by hand. Boring and Morticing Machines which a few years ago were used but by a very few, have now become as much of a tool as a saw or plane—for the reason that they are portable and as easily moved from one place to another as any other tool, and the despatch with which work can be accomplished makes it an object for every builder to have one.

The Boring Machines are very simple in construction and operation. They are neatly finished, light and portable. A set of three augurs is fitted to each machine—1, 1½ and 2 inches.

Price, each. Augurs, per quarter.
Orders promptly answered.

PRATT & CO.

BUFFALO, MAY 1st, 1854.

PRATT & CO.

From the Buffalo Democracy, June 1st, 1855

VISIT TO AN ENGRAVING ESTABLISHMENT.—We yesterday spent an hour or two in rambling thro' the extensive establishment of R. J. COMPTON, the engraver and lithographer, and will endeavor to convey to our readers some idea of the peculiarities of the business, as they were pointed out to us.

The *ateliers* of Mr. COMPTON occupy part of the second and all the third, fourth and fifth stories over Sage & Sons' music store, No. 209 Main street. A neat office on the lower of these is occupied for the business transactions of the concern; and here are displayed numerous specimens of the various arts coming within the range of Mr. C.'s capacity of execution. Some of the engravings and lithographs here shown are among the very finest examples we have ever seen. Proceeding to the next story, we found a room occupied by artists engaged in engraving in its various branches. One at work designing a portrait upon stone; another was tracing the lines of a large and beautiful map of "Forest Lawn" Cemetery; another was drawing upon an enormous stone the minutely ramified limbs and twigs of a great family tree, belonging to one of our oldest Buffalo residents. In this room we were shown the wonderful and ingenious piece of mechanism by which the stone is actually engraved with medallions, tracery, clouds, &c., and which fulfils all the purposes attained in copper-plate engraving by the "geometric lathe" and "engine turning;" such work is noticeable in bank checks, drafts, some of the finer labels for druggists, etc., and comprises an inexhaustible variety of concentric and eccentric lines. The apparatus is from Germany, and cost about \$1000; it is the only one in the State out of New York. The process of engraving on stone is a new one, comparatively, and more nearly allied to copper-plate engraving than to the old lithographic method. The lines are etched in the stone precisely as they are cut into the copper. Parts of the map just spoken of, which is the topographical map, representing the face of the cemetery, are done in this way, but by hand. The lathe work is, some of it, exquisite; and it is one of the wonders of this piece of mechanism that any sized medallion or bas-relief may be copied by it and reduced to microscopic size, and yet remain perfect.

We saw here lithographic stones by the hundred, some of them as large as five feet by four' and costing \$150 each; they are imported from Germany. The ordinary lithographic work done by Mr. COMPTON is of a high order of excellence, and his orders are constant and numerous. We saw in operation no less than twelve presses for this kind of work; and to these will be added six more, as soon as, by means of a sky-light and other additions to the present establishment, light and room can be obtained. The upper two stories are occupied by presses, lithographic and copper-plate; one of the former of these is the largest to be found in the country, except in New York, and it is not exceeded in size by any there. The copper-plate presses are three in number and are constantly employed.

Of the specimens of his work shown us by Mr. C., we have only room to speak generally. A particularly extensive branch is the designing and printing of labels for Messrs. A. I. Mathews & Co., druggists and pharmacians. This department, though at first thought it may seem but a limited one, is really very important, so numerous are the varieties and so great the consumption of the articles. All these are executed in the finest style of art, and it would be difficult, if not impossible, to counterfeit, or imitate by fraud the simplest of the great assortment. Fage & Sons also afford steady employment to the establishment in the printing of music, of which they issue great quantities. And the processes here are as novel as curious. The music is first stamped, notes, marks, words and all, upon a sheet of soft metal, by hand, with steel dies; an impression is taken from this plate upon paper, and then transferred to stone; the music is then printed from the stone. Thus it is that this luxury is so cheaply and extensively disseminated. Turner & Co., makers of sarsaparilla, ginger wine and summer beverages, in Buffalo, New York and San Francisco, also have an enormous amount of work done by COMPTON, which is distributed all over the world. We were shown the process of printing in colors, from the stone, and saw a map, seven feet by five in size, printed in oil colors, and one of the finest pieces of work, ever done, of its kind, in America. In the line of copper-plate engraving we saw some beautiful specimens of cards, bank drafts, checks, &c., which we cannot more particularly enumerate.

It is a real honor and credit to any town to have such an establishment as this within its limits, and of the one here described Buffalo has reason to be proud, inasmuch as its originator and proprietor is a young Buffalonian. We are glad to know that his capacity and skill are appreciated, and that orders from all parts of the Union and Canada are constantly pouring in upon him; even from the remote West he daily receives demands for the execution of work. Long may he continue to prosper and confer honor upon the town while reaping profits for himself.

R. J. COMPTON,
LITHOGRAPHER

IRON BENCH SCREWS.

Sold by **PRATT & CO., Terrace Street, BUFFALO, N. Y.**

The Iron Bench Screw is fast taking the place of the Wood Screw, not being liable to break or wear out, and being, as to cost, within the reach of every one. We sell them in large quantities, and they give good satisfaction.

We have no hesitation in recommending these Screws to the attention of Merchants, as an article which on account of its superiority, is easily introduced and readily disposed of at a fair profit.

The Mechanic will find, on trial, that for the sake of economy, as well as on account of the ease and comfort in using, he will greatly prefer the Iron Screw to any other in use.

The usual sizes are 1 inch.

1 $\frac{1}{4}$ "

1 $\frac{1}{2}$ "

1 $\frac{3}{4}$ " Price according to size.

We are also supplied with the best qualities of **WOOD BENCH SCREWS**, for those who prefer them. Also on hand **CLAMPS** with **WOODS**, and **CLAMP IRONS** of the best makers.

A liberal discount to dealers. Orders promptly answered.

No. 21 Ohio Street, **Buffalo, N. Y.**
A. GOOD. WM. P. MOORES.

JACK SCREWS.

Sold by **PRATT & Co., Terrace Street, BUFFALO, N. Y.**

The first two cuts on the left are *Jack Screws*, which we offer, differing only *in size*. We have them from $1\frac{1}{4}$ to $3\frac{1}{4}$ inches. They are used, as is well known, for raising buildings, &c.

The *right hand* figure exhibits a Screw with an *Iron Stand*, and is extensively used in repairing locomotives and various kinds of machinery, and possessing an advantage over others in the fact that they are easily adjusted under the part to be raised, and requiring nothing beside their own structure for successful usage.

These Screws are made of the best material, and in workmanlike manner, particular attention being paid to evenness of thread, and exactness of fitting of the different parts, to prevent cramping or friction.

Orders promptly answered.

PRATT & CO.

WEBSTER'S OIL STORE

Corner of Washington and Quay Streets, Buffalo, N. Y.

G. C. WEBSTER,

Manufacturer and Dealer in Machinery and Burning Oils.

WEBSTER'S FOSSIL OIL

FOR MACHINERY,

Believed to be superior to any oil in use, for the following, amongst other reasons: that its lubricating or rubbing surfaces promoting easy action and preventing friction is unequalled, as is also its durability; that it will not form gum—as evidence of this, machinery upon which it is used, after rest and exposure, recommences its motion with the same ease as if it had been momentarily suspended; and what is a great desideratum, it will endure far more cold than any lubricator in use, remaining limpid and flowing when winter sperm and whale oils are congealed and cold. Like most other really valuable improvements, it has not escaped being counterfeited, a spurious article being for sale in this market.

Webster's Machinery and Burning Oil,

Adapted to mild weather—an admirable and reliable preparation, of great durability—will not oxidize and form gum—superior to sperm for machinery, and hardly inferior for burning.

Machinery Oils of lower grades of quality, adapted to coarse purposes.

IMPROV'D BURNING OIL

Fully equal to purest sperm, both in volume of flame and in illuminating power, and Costing but about one-half as much.

LARD OIL, equal to any made. Lard Oil for Druggists' and Perfumers' use, transparent, colorless and inodorous as water.

Painters' and Tanners' Oil.

FROM THE

Very best Cast Steel, and warranted

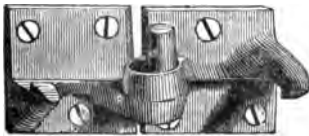

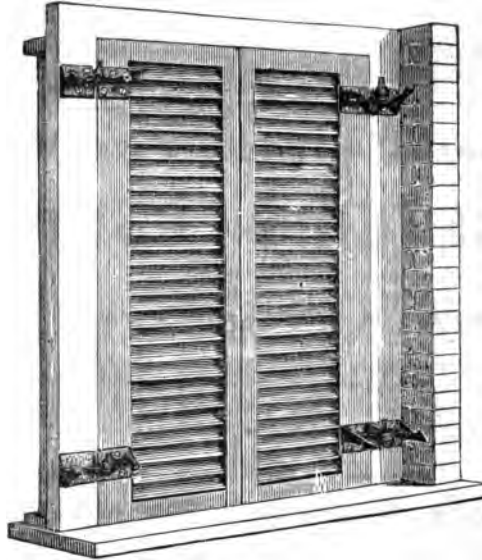

CORNER OF WASHINGTON AND SWAN STS., BUFFALO, N. Y.

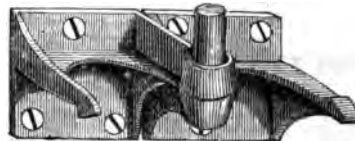

Circular Saws, warranted to run true. Saws repaired. Job Grinding and Polishing executed in good style, on the shortest notice. All work warranted.

BLIND HINGES AND FASTENINGS

CHARLES PARKER'S PATENT.

FOR WOOD.

FOR BRICK.

Sold by **PRATT & Co., Terrace Street, BUFFALO, N. Y.**

The subscribers take pleasure in offering these Hinges and Fastenings to the public as the most complete and desirable of anything of the kind ever invented. *They are warranted not to break in the severest winds.*

One needs only a gimblet, a try-square, and a screw-driver, with which to put them on. The lower edge of each half of the hinge must be level, and in a straight line. The large or oblong eye, belongs to the lower hinge. The Blind may rest on both the upper and lower hinges, but *must always rest on the lower hinge.*

Blinds with these hinges and fastenings can be hung in one-fourth part the time which it takes to hang them with most other hinges and fastenings, and the most awkward person cannot fail to close the blind when the effort is made. They sell well, and give good satisfaction. Try them.

A liberal discount to dealers, and orders promptly answered.

DOWN'S & CO'S
CAST IRON REVOLVING SPOUT CISTERN PUMPS

Sold by PRATT & Co., Terrace Street, BUFFALO, N. Y.

These Pumps are of simple construction and every part perfectly fitted. They are so made that they may be taken apart and access gained for repairs, &c., to all the Valves without taken up the Pipes, or even detaching the platform to which the Pump is fastened. The Spout, simply by loosening the upper part of the stock, may be fixed in any desired position, so that the Pump may be placed in the corner of a room or other similar location. To avoid *freezing*, the water may be let out of the Pump by raising the Brake to its extreme height. These Pumps will draw water as well *horizontally* as *perpendicularly*. Orders promptly answered.

COURTER HOUSE

B. F. POPPLE, MANAGER,
Corner of Erie and Seneca Streets,
BUFFALO, N. Y.

THIS NEW AND COMMODIOUS HOTEL
 IS SITUATED

**Nearly opposite the Niagara Falls, Buffalo & Brantford and Great
 Western R. R. Depots,**

AND IN THE IMMEDIATE VICINITY OF THE DOCKS OF THE

The Michigan Central, Michigan Southern and Cleveland Line of Boats,

Being the most convenient house in the city for travelers wishing to visit the Falls, or to take
 either of the above lines of conveyance.

This house and furniture is new and was built expressly for the accommodation of the traveling public. In point of convenience and comfort, the manager pledges himself that the Courter House shall not be excelled by any house in the city. The house has all the modern improvements of the times, water and gas from basement to attic. Rooms are high, light, pleasant, and furnished in a style to compare with any hotel in the city.

Travelers will find at the Courter House accommodations of a superior order. Guests will be accommodated with

**ROOMS ON THE EUROPEAN PLAN
 OR WITH REGULAR BOARD, AT \$1.50 PER DAY.**

Connected with this house is a

A SPACIOUS AND ELEGANT RESTAURANT,

In which travelers can be accommodated with any thing they wish, and at all hours, and be obliged to pay *only for what they order.*

Carriage and Baggage Wagon will be in attendance at the Boats and Cars.

**COMPTON'S,
PHOTOGRAPHY
GALLERY.**

R. J. COMPTON, has opened a Gallery for the production of
PICTURES ON PAPER AND GLASS,
BY THE PHOTOGRAPHIC ART,
AT HIS LITHOGRAPHING AND ENGRAVING ESTABLISHMENT,
209 Main Street, (Over Sages' Music Store,) Buffalo, N. Y.

Convinced of the great superiority of these Pictures over the old Daguerreotypes, by the immense success that has attended their introduction in the principal cities in the United States and Europe, where it has entirely superceded the Daguerrean process, he has been induced to introduce it in this City, determined that Buffalo shall not be behind the age in the Arts.

Pictures made by this process are far superior to the Daguerreotype,

THEY ARE NOT AFFECTED BY CLIMATE OR AGE,

ARE DEVOID OF METALLIC REFLECTION,

AND CAN BE SEEN IN ANY LIGHT.

Photographs can be remitted by mail, or otherwise, cheaply and without the possibility of damage.

They can be produced either plain or colored, and when colored rival the most beautiful paintings in Oil, and water color on Ivory. Any number of copies can be made from the result of one sitting, thereby affording an opportunity of sending to friends duplicates of a Portrait in different parts of the World.

The public are respectfully invited to call and examine specimens.

BUFFALO
NURSERIES

SITUATE

BETWEEN MAIN AND UTICA STREETS,

Entrance on Utica, west of Delaware Street.

EVANS'
LONDON FIRST PREMIUM
INTERNATIONAL
DAGUERREAN GALLERY

NO. 214 MAIN STREET.

Annexed is a cut of a Silver Medal awarded the subscriber, by the New York State Agricultural Society, at Buffalo, in 1848, Syracuse in 1849, Rochester in 1851; also three Diplomas for the best Daguerreotypes. In addition to the above, I have received a Medal from the World's Fair, at London, in 1851, for pictures of the *highest excellence*, thus showing more first-class premiums than any other operator in the United States, in every case competing with the first Daguerreans in the World.

All persons are most respectfully solicited to call, whether wishing pictures or not, and accept the thanks of the proprietor,

O. B. EVANS,
The oldest practical Daguerrean
in America.

V. C. PRICE & CO.

LATE OF THE EAST,

CHEMISTS AND DRUGGISTS,**No. 283 Main Street, Buffalo, N. Y.**

DEALERS IN SUPERIOR

Drugs & Medicines**ESSENTIAL OILS AND MEDICINAL EXTRACTS,****SURGICAL AND DENTAL INSTRUMENTS,****TRUSSES, BANDAGES AND SUPPORTERS,****Medicine Chests, Apothecaries' Scales and Weights, Chemical and
Druggists' Glass Ware, &c.****Importers and Manufacturers of Chemicals and Perfumeries.**

We would respectfully inform the public that we have opened a New Drug Store at No. 283 Main Street, and are now prepared to execute orders on the most reasonable terms. Our store is new and commodious—stock well selected and complete—and our arrangements for serving physicians and druggists, in every way, cannot be surpassed. Articles manufactured in the laboratory by a practical chemist, and under our own supervision.

Physicians and Druggists can rely upon having articles that are pure and of the first quality, at the lowest market prices. Our trade is not mixed up with Patent Medicines, but confined exclusively to the legitimate drug business.

We solicit an examination of our store and its arrangements, our stock and prices.

 *Orders will meet with prompt attention. Dealers furnished with Price Current if desired.*

Druggists.

The splendid store of V. C. PRICE & Co., Brisbane Block, is of our most popular resorts for professional men and others. The assortment is large and comprehensive, and is therefore a favorite with physicians. The prescription department is in charge of a person who has had due experience, and who is proof against mistakes. Two elegant Soda Fountains have been erected in this store, to supply the needs of perspiring humanity during the rigor of the heat. A practical chemist is employed by this firm, who spends his entire time in the laboratory. PRICE & Co. have been in Buffalo only a short time, but any one can see that they are successfully competing with our older houses. Another large and well to do Drug establishments is that of O. H. P. CHAMPLIN, corner Main and West Eagle. Mr. CHAMPLIN has long been engaged in the business and is as reliable as the sun. Besides a regular stock of drugs, medicines, perfumery, soaps and fancy articles, he deals largely in the best patent medicines, among them are Dr. McCLINTOCK's celebrated and highly excellent publications.

We may also mention as worthy of confidence, the staunch house of DEMERAST & HOLMAN, JOHN J. GIBBINS, and that of C. F. WRIGHT, which, though less pretensions than some others are not to be passed by without a hearty recognition.—*Publishers.*

Stoves, &c.

RICHARD SCODELL, is a capital man to trade with, if you happen to want a stove that is "sure fire." He keeps on hand a large assortment, embracing all the best styles and all the modern improvements. Consult his advertisement and be convinced for yourselves.—*Publishers.*

Wholesale Stove Establishment.

We came within one of omitting the extensive establishment, conducted by two young and highly esteemed gentlemen, TUNTON & MILES. It is a firm of not very long standing in our midst, but the receipts show a business that they can read their fortune clear. They wholesale the best stoves made in the land, that are manufactured in the good old dutch city of Albany, by Messrs. RATHBONE & KENNEDY. All retailers should give the establishment a call before purchasing elsewhere.—*Publishers.*

Oil Manufacturers.

MESSRS. SPRAGUE & WARDWELL and GEO. C. WEBSTER, have large establishments, for manufacturing of oils, and command special attention. All that purchase of them, give them the very highest praise for keeping just what they advertise, oils that cannot be excelled. See advertisement.—*Publishers.*

American Express Company.

We have often wondered why the history of the "Express" movement has never been written, for the pleasure and edification of mankind. Only a few years ago its operations were confined to a single carpet-bag; now it calls in requisition cars, vessels, ships, steamboats and whatever traverseth the land or the water. Then its capital was a quarter of a dollar and a manly purpose; now it is counted by millions. The success of the company of which we write is unprecedented—a result of promptness, care and dispatch. The world could not do without Express Companies, now that their utility is known. As well might we dispense with railroads and telegraphs, and the other cardinal conveniences of life.—*Publishers.*

Hotels.

The reputation of Buffalo—the Queen of the Lakes—for first class Hotels, is a matter of history. The opinions of the travelers who have sojourned with us, at various times and seasons, are as fair and favorable as a June morning, in this regard. If people can obtain a good meal, a nice room and comfortable bed—as well as polite attentions—anywhere, they surely can in Buffalo. For instance, there is the Clarendon, located at the junction of five streets, commanding a splendid view of the city and Lake Erie, and convenient to all the principal depots and docks. A right excellent house is the Clarendon, in all respects.

Then the St. James, recently opened by Mr. EDEY, upon the European plan, having separate restaurants for ladies and gentlemen, and fitted up and furnished with great taste and expense.

Besides these, we have the American, Mansion, Wadsworth, Courter House—this is one of the newest and best of our Hotels—Brown's, Bennett's Temperance House, Franklin, Western and Dayton, all of which are fit for the abode of a king. The nomadic world need never fear as to accommodations and luxuries in Buffalo.—*Publishers.*

Choice Family Groceries.

Here is another branch of trade in which our city excels. Our Grocery establishments, whether wholesale or retail, are among our most noticeable "institutions"—employing, as they do, a vast amount of wealth, and conducted, as they are, by capital men, in two senses. R. HOLLISTER & Co., have an immense establishment and make a half dozen fortunes every year. JOHN W. WILLIAMS is a heavy and successful dealer; J. S. SEIBOLD is another; COMSTOCK & LAING, A. S. WEBSTER, S. N. CALLENDER, WEBSTER & Co., H. O. COWING, A. TWICHEL, E. K. BRUCE and H. HAGAR & Co., are in the rear of none we have before named, and deserve as liberally of the public as the best of them. The good things of life may be obtained, on satisfactory terms, at either place here set down.—*Publishers.*

Type Foundry.

The process of type making is a very interesting one, as those who visit LYMAN's Foundry will easily discover. This is a large and flourishing concern—employs the constant services of forty men—and furnishes all kinds of newspaper, book and job type at short notice and upon reasonable terms. In one sense, a type maker is a tailor—for he is constantly providing new suits. LYMAN has achieved an enviable notoriety in his business. Many of the best newspapers in the United States are printed upon his type. He strives to succeed, by every possible means that is fair, and we are right glad that his labors are blessed with success.—*Publishers.*

Mill Stores, Mill Furniture, &c.

JOHN T. NOYE manufactures a superior French Burr Mill Stone, and deals in Mill Furniture, Portable Mills, etc. His manufactured and imported articles possess the *prestige* of universal success, being complimented on all sides by those who have subjected them to the most rigid tests. Mr. NOYE deserves his success if any man does.

WESTON, COGSWELL & Co., are in the same line of business, manufacture BUTLER's celebrated Flouring Mill, and deal in Mill Machinery generally. They are also Agents for the most approved Smut Machines. These gentlemen are the successors of LOWELL, WRIGHT & Co., and are upright and liberal tradesmen. They possess every qualification requisite in their business, and superintend, in person, every work turned out from their establishment. Any person requiring articles in their line of business, we commend most cheerfully to the above mentioned gentlemen. See advertisements.—*Publishers.*

Troy Bell Foundry.

This Foundry stands A No. 1 in turning out bells of all kinds. We speak from experience, when we say that the church bells manufactured at this foundry, by Messrs. JONES & HITCHCOCK, are the most reliable, and contain the most durability of sound of any bells in the country. We cheerfully commend them to the consideration of any in search of Church, Factory, Steamboat or Plantation Bells. See advertisement on page 179.—*Publishers.*

Defiance Salamander Safes.

ROBERT M. PATRICK, of New York city, is the sole manufacturer of these celebrated Safes, for the United States. They have a wide reputation for security against flames and burglars, and are equal to any safe now before the public. Messrs. PARMELEE & HADLEY are the agents for Buffalo.—*Publishers.*

Oil Manufacturer --- F. S. Pease.

We take particular pleasure in calling attention to the advertisement of F. S. PEASE, manufacturer of various kinds of oils—an advertisement which shows that his establishment is no single horse affair, but that it is worthy of extended mention. Mr. PEASE is a young man, but an industrious, indefatigable and already famous one. The improvements which he has made in the manufacture of oil are signal ones, such as has attracted the attention of experienced and scientific men, and have caused his oils to come into general favor.

We have lately inspected a number of testimonials addressed to Mr. PEASE, by engineers of steamers and railroads, heads of the largest manufacturing establishments, chemists, etc., in the United States and Canadas, all of whom speak in terms of unmeasured praise concerning these oils. Mr. PEASE manufactures some fifteen or twenty different kinds, for different purposes, and it is a remarkable fact that *all* of them are pronounced *ne plus ultra*, by the best judges. It would not be strange if he failed in one or two of his attempts—but the fact that he has not done so, proves that he is unusually talented, and that his oils are of superior quality. The secret of his success partially lies in the fact that he is constantly laboring after greater perfection, by means of experiment, comparison, observation, etc.

Mr. PEASE has lately received orders from Government for a large quantity of oil, to be used for light houses and other purposes—a fact which proves not only that his fame has gone abroad, but one that, also, resolves itself into a signal compliment to his manufactures. His oil is also used in many of the heaviest printing establishments in the United States. We have noticed testimonials from some of the largest and well known houses in New York city, which go to show that the oils are as represented, superior to any other.

We might enter into a description of the various oils prepared by Mr. PEASE, but as they are specified in the advertisement, this is rendered unnecessary. We have already said quite enough to show that his manufactures are of a character and quality which place them beyond the reach of competition—and have proved that they are not only approved, but demanded, for practical use, by those whose opinions are most valuable. Wishing Mr. PEASE all success, we pass on.—*Publishers.*

Agricultural Implements.

There is but one name under this head, and that is our worthy and esteemed townsman, JOHN A. PITTS. He is known the world over, and more particularly to the “staunch old farmer.” Mr. PITTS’ Patent Thresher and Cleaner is universally known and universally esteemed. It stands now, as it always has, the *best machine of the kind*. His “Improved Double Pinion Horse Power,” and “Patent Corn and Cob Mill,” are worthy of the examination of the farming community. See advertisement on page 162.—*Publishers.*

GARDNER'S IMPROVED POST AUGER.

PRATT & CO., Sole Agents,
Nos. 28, 30 and 32 Terrace Street, BUFFALO.

This article is made under our own direction, from material furnished by ourselves. The rods are of good size and quality of iron, and the two cutting edges, with the entire lips or wings, are of fine shear steel. The handles are of good timber, nicely turned, and well put on. Making, altogether, the most complete and valuable article of the kind in market.

Particular care is taken with every auger to make the lips of uniform and fine temper. The lips are strongly riveted to a heavy crossbar, which is pierced in the center to admit the rod. A screw is cut upon the rod, just above the point, and the orifice in the crossbar being furnished with a thread to match, the blades are firmly secured to their proper positions, and the wings thus held firmly at right angles to the rod.

The sizes are three : 6, 8 and 10 inch.

Orders solicited, and promptly answered.

BUFFALO, N. Y.

YOUNG MEN'S CHRISTIAN UNION, OF BUFFALO.

Among the advantages of every place, the means of moral and religious welfare hold no low or subordinate rank. And among such means, an active Christianity is absolutely pre-eminent. We hold it too self-evident for contradiction, and too abundantly proved in all history for denial, that Christianity alone has ever exhibited sufficient power to purify the moral life of nations. Our proof is in the simple fact that the standards of Christianity are the fountains of the only pure morality the world knows, and that the actual history of every nation has exhibited purity, virtue and an excellent morality only just in proportion to their general reception of christian principles. In this light, the embodiment of christian activity in the association of young men of every evangelical denomination is a matter of deep interest to every citizen who desires the welfare of our country and the permanency of its free institutions.

Our design is to notice the one formed in our own city and now actively engaged in using the various means of spreading the knowledge and influence of christian principles among the masses. From a statement of its first President, N. A. HALBERT, Esq., made at the opening of the new rooms of the Association, in Kremlin Hall, we learn that it was organized on the 20th of May, 1852, with about forty members—young men connected with the different churches of the city—and incorporated in May, 1853. By its constitution all persons of good moral character are admitted to membership, but its officers must be members of evangelical churches. Its proposed objects are, to promote the social, intellectual and religious improvement of young men. Particular attention is paid to bringing young men who come from other places, to reside in Buffalo, under proper moral and religious influences, by aiding them in the selection of boarding places, introducing them to the members and privileges of the Association, and persuading them to attend regularly some place of worship on the Sabbath. Soon after its organization, with these objects in view, rooms were procured and supplied with a library and the leading religious journals of the different denominations. Its first year closed with three hundred members. During its second year, arrangements were made, not only to secure enlarged means of improvement to the members, but to interest and employ them in the active duties of appropriate christian exertion. Several of the churches engaging to furnish Bibles and tracts for the purpose of distribution throughout the city, these works were both undertaken and a system adopted which has since been followed and improved for greater efficiency as experience has directed and as means and men to use them have increased. During its second year it also sustained a course of lectures on sacred history, delivered by clergymen of the city. These were continued and a course of general public lectures instituted, during the third year, which, with the lectures on sacred history, are still maintained. At the close of the third year, the membership had risen to seven hundred, and the library to six hundred volumes. During this year, the large and central, as well as convenient and beautiful, public hall known as the Kremlin was built by Messrs. OLIVER BUGBEE and Dr. H. N. LEWIS.

It had become evident that the increasing operations and usefulness of the Union demanded much greater accommodations than they had thus far possessed. Though the size and convenience of the Kremlin and its accompanying rooms were greater than the present need of the Union, and the expense beyond their present resources, the locality was every way desirable. The liberality of the churches and private friends of the Union met the difficulty of increased expense by a subscription, for the purpose of hiring and furnishing the Hall and other rooms, as well as enlarging the library and supply of periodicals.

Kremlin Hall, with the accompanying rooms for library, committees, &c., was rented for five years, with a privilege of renewal for five years more. The Hall has been appropriately furnished, and the library increased by the outlay of \$1000, for suitable books, and by the generous donations of several friends. In extending its operations, the present year has been marked by the introduction of a system of Mission Sabbath Schools. On the second Sabbath morning of each month, a prayer meeting is held, in accordance with the recommendation of the National Convention of Christian Associations, held in June last. On the first Monday evening of each month, a literary meeting is held for debate and the reading of essays. These meetings are open to the public and are becoming more and more interesting, and attended by increasing numbers. During the summer months, an afternoon Bible class is held every Sabbath, in the library room. A monthly meeting is also held for the purpose of hearing the reports of the various committees having charge of the religious enterprises which the Union has undertaken.

In all these various ways the Union is well adapted to concerted action. Its committees are selected from all the evangelical churches, and by a due distribution, taking its appropriate part from each alike, must tend to promote a *harmony of christian hearts in one common working together* to do good, which perhaps no other agency could.

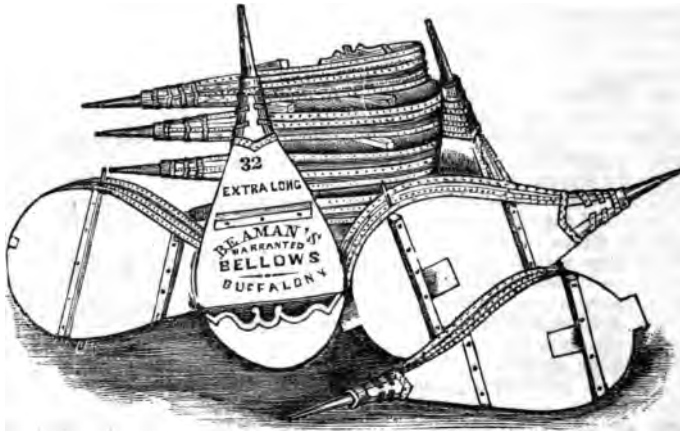

The closing remarks of Mr. HALBERT's address are worthy of all attention:

"It will be perceived that we have a comprehensive field: Bible and tract distribution, by which we reach the masses of the poor and destitute; Mission Sabbath Schools conducted upon a uniform and efficient plan; courses of lectures which, while they gratify an intellectual taste, shall inculcate a sound morality; a library that repudiates the frivolous and morbidly sentimental, but shall comprehend science, general literature and the rich masses of christian learning. Our experience has shown that the main object of all, the religious welfare of young men, can in no way be so well secured as by enlisting our members heartily in such enterprises as we have undertaken."

The results of such an agency as this in an influential and growing city, it is not for man to count. Yet, more baffling to all human calculation is the study of the results of similar agencies, now more fully organized in most of the principal cities of our own country and many of the most important cities of the Old World. For ourselves, we look to it with confident hope that God has raised up in this way the opportunity for a *united* religious action of christian laborers in a degree of harmony which no other organization of a too much sect-divided church presents. It is a study for the christian philosopher, how far this *acting, working* Union of Christians of all denominations, not in distant fields where they are merely represented, but at their own doors, in their own cities, where they work, and counsel, and pray so *one-ly*, is capable of healing the breaches and concentrating in one again the energies of the church of God.

In yet another light these Unions of christian young men are an object of deep interest to the patriot. Amid all the contentions of political economists, about the best form of government, and all its related questions, it is as much a maxim of sound policy as of true piety, "Righteousness exalteth a nation." It is too late in the day to doubt the supremacy of the christian system above all others to promote this national honor. Let the patriot cast his eye over a country dotted with active, energetic companies of young men, giving all the warmth of early piety, and all the strength of youthful vigor to spread that Christian truth which has quickened their own hearts through the whole people, high and low, rich and poor. If, above all triumph of any special political parties, based simply upon some question of the proprieties of political government, the christian patriot is to realize his hope of our country in a condition of which may be written "Happy is that people whose God is the Lord," may not these bands of the young be his greatest encouragement to hope for it? That it may be so realized, we deem they do give good ground of hope. God speed them, one and all.

BUFFALO BELLOWS FACTORY.

PRATT & CO., Sole Agents, Terrace St. BUFFALO, N. Y.

The "BUFFALO BELLOWS" are manufactured of the best materials by experienced and skillful workmen. The leather used is made expressly for this purpose in this city, and selected with great care.

They are not surpassed in appearance and quality by any manufactured in this State or elsewhere. Our facilities for obtaining stock enable us to furnish Bellows of any kind on more favorable terms than eastern manufacturers.

Bellows-Nails, Ferrules and Pipes, and Tew Irons, on hand or furnished, and any particular pattern of Bellows other than those named in the following List, made to order. Old Bellows repaired.

PRATT & CO.

THAYER & BROWN,

MANUFACTURERS AND WHOLESALE DEALERS IN

OILS & CANDLES

Perry St., between Main and Washington Sts.

BUFFALO, N. Y.

The following kinds of Candles are manufactured by us, and sold at the lowest rates, viz:

Patent Sperm, Adamantine, Star, Stearine and Tallow.

OILS.

Sperm Oil, Winter and Spring; Elephant Oil, various qualities; Whale Oil, Winter and Spring, bleached; Lard Oil, the pure article;

MASEN'S SPERM OIL.

This Oil is manufactured by the Manhattan Oil Company, N. Y., and is, without doubt, superior to any Oil now in use—it is used by more Rail Roads and Steam Ships than any other Oil, in this or any other country. Evidence of its superior quality is in our possession, subject to the inspection of all persons interested.

RED AND ACID OILS OF SUPERIOR QUALITY.

The above Oils constantly on hand, for which customers are wanted; and as our motto is, "A nimble sixpence is better than a slow shilling," low prices can at all times be relied upon.

ADVERTISERS TAKE SPECIAL NOTICE.

ADVANTAGES OF ADVERTISING THROUGH HUNTER & OSTRANDER'S NEWSPAPER AGENCY.

 Much time, trouble, and expense are saved the advertiser:

1st.—By selecting papers of the largest circulation, and best adapted to the business of the advertiser.

2d.—The agents will make out the price of the advertisement for any length of time before sending it, so that the advertiser will know the exact amount of his bill when due.

3d.—The agents will be responsible that each advertisement is inserted in the manner stipulated, and sent promptly.

4th.—They will send the advertiser one copy of each paper containing the advertisement, and each paper can be seen at any time, at their office, in Brown's Building, Buffalo, corner of Main and Seneca Sts., Room No. 7.

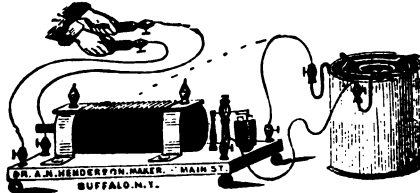

5th.—The prices of advertising will be the same as are charged to large customers at the offices of publication, and will be less than are generally charged to those whose responsibility is unknown.

6th.—Practical information respecting the value of different mediums for advertising, will be cheerfully communicated, and assistance rendered without charge.

7th.—The bill is to be settled with the agents, and their receipts are regarded as payments by the publishers, and an account is kept only with them.

8th.—The agents give their personal attention to business.

231 MAIN STREET,

N. WILGUS & SON.

THERE are various methods which men adopt, in order to extend their business, and acquaint customers of their facilities for supplying their wants, and inviting trade. They are all good in their way, and to a limited extent serviceable; but of all methods that have been discovered, that of advertising through the medium of a good and long established and widely circulated newspaper takes the lead. There is a time in the life of most business men, when they think that some other method will be of greater service to them, but upon trial find themselves to be in the error; and hand-bills, cards and circulars are discarded, and are considered worthless in comparison to the good old way of advertising in the family newspaper. The regularity of its appearance, its news and freshness, make it a medium unsurpassed for making any new thing public. No family of intelligence is without it, and those who are accustomed to reading would rather do without one meal a day than lose it. Newspaper publishers generally throughout the United States have appointed agents in nearly all the large cities in order to increase the amount of their business in their respective papers, by rendering the same facilities to business men as if the offices of publication were *all located in one city and combined in one*. This arrangement advertisers will find to be of great advantage to them, as they can deal with *one* agent as favorably and more expeditiously than with one hundred different publishers, at their own offices, and publishers also find it better for them to pay an agent for attending to their advertisers in the cities and dealing but with one man of their own appointing, than with a large number that they are not acquainted with. HUNTER & OSTRANDER have established a Newspaper Advertising Agency in the city of Buffalo, Brown's Building, and they respectfully invite all who wish to advertise, as well as publishers of newspapers, to call and examine their files of newspapers.

AND THE STATES OF

Indiana, Michigan, Illinois, Wisconsin, Iowa, Minnesota and Louisiana.

Some of the advantages of this Conductor over the Iron rods in common use, are:

1st—**Extent of Surface**, two to one—(Electricity passes *exclusively* upon the surface. Draper's Chemistry, Sec. XXVI, page 105.)

2d—**Conducting power of material**—(eight times as good as Iron of the same size and form. Scientific American, Vol. X, No. 5.)

3d—**Durability**—is affected but little by rust, while the conducting power of Iron is entirely destroyed by it in a few years.

4th—**In manner of coupling**, which is done by lapping intimately, and riveting with Copper rivets.

5th—**It is ornamental.**

6th—**First cost is but little more**, and when properly applied, the protection is *perfect* and permanent.

Circulars in which these and other claims are sustained by the highest authorities on the subject, will be sent on application.

ST. JAMES HOTEL

Corner of Main and Eagle Streets, Buffalo, N. Y.

This new and elegant Hotel has been recently opened in the
EUROPEAN STYLE.

The subscriber would respectfully announce to his friends and the public generally, that

THE UPPER RESTAURANT

Is now open for the reception of visitors, and he respectfully solicits a share of the public patronage. It is his desire to render this Restaurant a particularly genteel place of resort, where

Ladies can come unaccompanied by Gentlemen,
IF THEY CHOOSE,

And order Lunch, Dinner, or lighter refreshments; and he pledges himself to do every thing to promote the real comfort of all who may favor him with their patronage. There will be a person in the Reception Room, which adjoins the Restaurant, to take charge of parcels, satchels, &c., for Ladies so accompanied. He would further say that

THE LOWER RESTAURANT

Is now open exclusively for Gentlemen, where they can be accommodated at all hours with every delicacy of the season. No expense or trouble will be spared to furnish the patrons of this Restaurant, with everything that could be desired.

THE CULINARY DEPARTMENT,

Which is superintended by Mons. LECKNER, will be unsurpassed in this or any other city.

PRINCE'S PROTEAN FOUNTAIN PEN

PATENTED JAN., 23. 1855.

T. G. STEARNS, General Agent,
No. 272 Broadway, Corner Chambers Street, New York.

OPINIONS OF THE PRESS.

A MAGIC PEN.—It is light, graceful, easily regulated, and in all respects a complete and well finished article.—*New York Independent.*

Eureka! Eureka!! We have found it at last; A FOUNTAIN PEN that will write for hours without once dipping in an inkstand.—*Knickerbocker Magazine.*

The Ink flows from it so evenly and so easily that the mechanical labor of writing becomes in itself a pleasure.—*Mother's Magazine.*

As a Reporter's Pen, I have never seen or heard anything equal to it. It is just the facility wanted in this department, so that it may keep up with the age of electricity and steam.

GEO. KELLOG. Reporter, 625 Broadway, N. Y.

Just the thing for any person who has much writing to do.—*Newark Eagle.*

For lightness and convenience it is in my judgment unrivalled, and too valuable to be parted with for ten times its cost, if it could not be replaced.—*Clerics, in the Christian Mirror.*

This pen, among pens, is what Colt's Revolver is among Pistols. One will fire a dozen shots, and the other write a dozen sheets, with a single charge or loading.—*Author of Major Jack Downing.*

If I could not procure another of similar merits, one hundred dollars would not purchase from me the one I have.—*A New York Clergyman.*

Price \$2.50 \$3.00 \$3.50 \$4.00 and \$4.50.

OLIVER CHACE, MANUFACTURER OF SPOOL AND POUND SEWING COTTON FALL RIVER, MASSACHUSETTS.

OFFICE, WITH KENNY & LOCKWOOD,
NO. 12 PINE STREET, NEW YORK.

ROBINSON'S PATENT HAND SEWING MACHINE WITH ROPER'S IMPROVEMENTS.

This Machine *actually* sews; uses but a SINGLE thread; THREADS its own needles and takes every variety of THROUGH Stitch, *without loop or chain.* The stitches are formed the *same* as in *hand* Sewing, and except in the perfection of their accuracy and regularity cannot be distinguished from hand work. The work is performed with *at least* six times the *rapidity* while being of vastly superior *quality* to the best Hand sewing.

To Ague Sufferers.

TAKE NO MORE ARSENIC, TONICS, MERCURY, QUININE, Febrifuges, Strychnine, or Anti-Periodics of any kind. The well known inefficiency of these noxious poisons proves them to be the offspring either of false medical principles or of mercenary quacks. The accumulative atmospheric poison MALARIA is the ONE CAUSE for which the ONE REMEDY is the natural antidote which can NEUTRALIZE IT. Take this, and health is secured.

RHODES' FEVER AND AGUE CURE.

See page 188.

THE AMERICAN MINING CHRONICLE

AND

IRON MANUFACTURERS' JOURNAL

Commenced its Fourth Volume January 1st, 1885.

The Chronicle, has its name would indicate, is devoted mainly to the collection and diffusion of accurate and reliable information relating to the arts of Mining and the manufactures of Metals, Engineering and Mechanics, Inventions and Patents, and all other matters connected with our immediate branch of industry.

The Chronicle contains full and correct particulars of the progress and prosperity of every Mining and incorporated Manufacturing Association in the country, furnished us by our own correspondents; reports of proceedings of Mining Companies, &c.; notices of new discoveries in all branches of Metal Manufactures and in all applications of science to mining; the fullest and most authentic reports of the state of all the foreign and home metal markets; prices current of metals; prices and fluctuations of the Mining Stock and Share Market, together with all other items of interest to the stockholder, the owner of mineral lands, furnaces or rolling mills, the machinist and manufacturer, as well as the wholesale and retail dealer in metals or hardware, who will all find, in their business, its information to be worth many times its cost annually. The contributors to The Mining Chronicle embrace the most eminent scientific geologists and thoroughly practical men of the times. The Editorial department is universally acknowledged to be conducted with great ability, and is distinguished for the truth and impartiality of its discussions and the fearlessness with which baseless schemes are exploded and unprincipled speculators exposed. The Mining Chronicle is published once a week. Each No. contains 8 large quarto pages.

Terms.—One copy 1 year, \$3; two copies \$5; one copy 2 years, \$5; invariably in advance.

DR. S. S. FITCH'S SILVER MOUNTED, COMBINATION PAD **SUPPORTER TRUSS.**

This instrument,
FOR THE RELIEF AND CURE OF HERNIA,

I beg to introduce to the notice of those afflicted with RUPTURE. It is the result of several years' study and experiment, embraces a "new principle" in the application of pressure to the hernial tumor, is perfectly efficient in its action, occasions no annoyance, and is worn without the slightest discomfort. I know it to be entirely superior to any other in use, for the following, among other reasons, viz:

1st—It gives support to the whole abdomen. Thus the bowels are kept perfectly in place, the rupture is securely held, there is no annoying pressure at any one point, and there is experienced only the most delightful feeling of support and relief.

2d—The Truss Pad acts upon a new principle, giving an upward as well as direct pressure. It imitates the action of the hand in this respect, and thus dispenses with much of the violent annoying pressure of the common truss.

3d—It performs the office of both abdominal supporter and truss, when desirable, combining both perfectly.

4th—For double rupture it is absolutely perfect. Its workmanship is superior, and it is sold at a less price than any of similar workmanship in the market. As a perfect Truss, it stands unrivaled and alone.

This Truss can be had and fitted on at my office, No. 714 Broadway, New York. It may also be inquired for of all the respectable Druggists and Physicians in the United States and Canada.

Persons at a distance can be fitted by sending me the size round the person just below the hips and on a line with the rupture, and stating the location and character of the rupture.

The trade supplied on liberal terms. Orders addressed to S. S. Fitch & Co., will be promptly attended to.

S. S. FITCH, A. M., M. D.

No. 714 Broadway, New York.

MEDICATED INHALATION,

IN CONNECTION WITH OTHER MEDICINAL REMEDIES.

Dr. S. S. Fitch's Treatment for Consumption and other diseases of the Lungs—Its complete Triumph.

TO THE COMMUNITY OF INVALIDS.

A mere theory of diseases and of medical practice, however beautiful, cannot be of much interest to the invalid. What he wants is relief from his sufferings and the means of cure. One single fact which shows him that he can be cured is worth more to the sufferer than whole volumes of learned speculations and ingenious theorizing, that leave him where they found him, to struggle and suffer and die. Such facts I present in the following correspondence. I ask the consumptive to read these letters carefully, and then put the question to himself, whether he is not unwise to neglect or delay availing himself of a treatment so clearly demonstrated to be successful in the cure of positive, seated consumption? These letters are taken up almost at random from the hundreds lying on my table, received from my patients in the course of regular correspondence and written without solicitation. I press them upon the attention of consumptives because I feel very desirous that they may be induced to adopt and employ a treatment which I know will be much less likely to disappoint their hopes of relief and cure than any other now anywhere practiced.

CASE OF MR. D. W. THOMPSON—TRUE CONSUMPTION CURED.

Mr. Thompson writes, directing an invalid friend to me, and then adds the following:

CAZENOVIA, Madison Co., N. Y., April 11, 1855.

DR. S. S. FITCH—Dear Sir: Suffer me to trouble you with a few lines touching my own health. You doubtless have forgotten my visit to your office, four years ago, I think, last October, and my situation at that time. Suffice it here to say that it was with great difficulty and some assistance that I was enabled to ascend the stairs to your rooms, at No. 707 Broadway; I was then laboring under all the symptoms of Consumption—having been treated for it by various physicians in Madison County, without any good result. I represented the facts of my case to you, and requested that if in your opinion there was any chance for me, I was desirous to know it; and if not was prepared for the worst. After examining me, your reply to me was nearly in these words: "I think, sir, you are badly situated, and your case is exceedingly doubtful. But I have remedies

that will perhaps make you more comfortable for a while, yet I cannot say I believe they will effect a cure." In short, I obtained of you medicines for two or three months, and took them, at the end of which time I was in the enjoyment of good health, and have been ever since, with the exception of an attack of pleurisy which prostrated me for some three months. My recovery is considered something very remarkable in Cazenovia.

Respectfully yours, D. W. THOMPSON.

P. S.—Should you desire a minute statement of my case for publication at any time, please write me. D. W. T.

CASE OF J. L. FOWLER, A RESPECTABLE FARMER.

FLUSHING, L. I., April 12, 1855.

Dr. S. S. FITCH—Dear Sir: In the year 1847, I applied to you in confirmed consumption; there is no doubt about this being my true condition then; I had a deep-seated cough more than a year, expectorating a thick matter; I had raised blood to the extent of eight or ten ounces at a time; every little exertion would bring on bleeding. The right lung was ulcerated. I was emaciated to a mere skeleton; strength all gone; much pain in the right chest and shoulders; I had lost all hope or expectation, and so had my friends, of my ever being any better. You gave me encouragement that I might recover, and I put myself under your care; you gave me shoulder braces, supporter and inhaling tube, with medicines, and I entered upon the treatment with but little hope of benefit. But now I bless the kind Providence who directed me to you. I soon began gradually to mend; the pain in chest subsided; the cough became less; all the tendency to bleeding disappeared; the ulcerated lung healed and became strong, and now for six years I have enjoyed health. I am confident that your remedies and treatment saved my life. The supporter, shoulder-braces and inhaling tube are perfectly invaluable. I regard your plan of treating Consumption as being demonstrated in my case to be effectual in its cure, and I do most earnestly recommend it to all who have diseases of the lungs. If the doubting will write or call on me I will convince them that what I say is true. Accept my heart-felt thanks for what you have done for me.

Yours, respectfully,

J. L. FOWLER.

GENUINE TESTIMONIALS.

If any doubts is entertained as to the genuineness of the above letters, the reader is invited to address a letter of inquiry to the respective writers. The benefits of the treatment by which such cures as these were effected, I tender to the consumptive, and invite him to consult me at my office, No. 714 Broadway, New York, from 9 A. M. to 6 P. M., any day in the week, Sundays excepted.

Those at a distance can consult me by letter. To enable them to make full statements of their cases, I append a series of questions. Reply fully to all that relate to your condition, stating any special circumstances not embraced in them.

QUESTIONS FOR THE INVALID.

Give name, age, residence, occupation; family consumptive, or what complaints subject to; where born and brought up; married or single; strong or delicate; lean or fleshy; tall or short; straight or stooping, or deformed; height and size around the waist two inches above the hips; color of hair; complexion; have you any humor, scrofula, cancer, skin disease, headache, cough, asthma, rheumatism, or pain anywhere, loss of voice, hoarseness, catarrh, dropsy, expectorate much, raise blood, fever or night sweats, chills, confined to bed or house, palpitation, nervous, fits, palsy, bad dreams, sour or sick stomach, dyspepsia, flatulence, distress at stomach, colic, all-gone feeling anywhere, costive, diarrhoea, appetite good or bad, piles, heat of urine or scanty of sediment? If a lady—married? had any children? any female complaints? irregularity? weak back? pain anywhere? any bloating? dropsy? bilious? worms? indigent or easy circumstances? any bad fits of sickness?

DISEASES TREATED.

I treat the following diseases, and generally give prompt relief and effect a permanent cure: Consumption, and all diseases of the Lungs and Throat.

Palpitation, and all other forms of Heart Disease.

Liver Complaint, Dyspepsia, and all other diseases of Stomach and Bowels, Piles, etc.

Prolapsus, and all forms of Female Complaints, Irregularities and weakness.

Rheumatism, Scrofula, and all Skin Diseases.

GRATUITOUS DISTRIBUTION OF A VALUABLE BOOK.

Dr. S. S. FITCH'S "Six Lectures on Diseases of the Lungs, etc.," a book of 368 pages, handsomely bound in muslin, with twenty-seven illustrations, in which the whole subject of Lung Disease is treated at length, and the consumptive pointed out the road to health, will be sent to or for invalids on application to me for it either personally or by letter. It can be sent through the mail, postage 13 cents. To insure the good faith of the application, I require the payment of the nominal charge of 25 cents. On the receipt of this it will be forwarded.

S. S. FITCH, A. M., M. D.,

No. 714 Broadway, New York.

THE PRESS OF BUFFALO.

BY ONE WHO KNOWS.

You'll find a press at Buffalo
 Not bettered wheresoe'er you go,
 For business, pleasure, art or taste,
 In town or city, East or West.

For business, could there ought be wiser
 Than a "COMMERCIAL ADVERTISER?"
 Can any turn of trade be lost
 Where there are "COURIER," "EXPRESS" and Post."

No faster town will dare a laugh
 While we enjoy a "TELEGRAPH,"
 Nor may another get before her
 Whose early eyes greet bright "AURORA."

Nor will you find us aught behind
 In politics of any kind—
 Of foreign war, or maddening cup,
 Loco, or whig, we're posted up.

If in a broad "DEMOCRACY"
 Or limited "REPUBLIC," we
 Shall need a watchful "SENTINEL"
 To guard the land in which we dwell.

Our "PATRIOT AND JOURNAL" then
 To Freedom shall devote its pen;
 Nor least of all, to save our state,
 Shall plead our "CHRISTIAN ADVOCATE."

That taste and art may be improved,
 And home adorned for all the loved,
 A ready "MESSENGER" attends,
 With wit and learning, all its friends.

Our children too are wisely cared for,
 And proper food their age prepared for,
 In a "YOUTH'S CASKET," e'er containing
 Some fruit of well meant labor's gaining.

Nor health, nor life shall be rejected,
 For want of Doctor's skill perfected,
 A "JOURNAL MEDICAL" prescribes each bolus,
 In sickest hours sure to console us.

Nor shall we rest in idle boast,
 Or have the world's improvements lost;
 An "AGE OF PROGRESS" shall inform us,
 In what a perfect flood they storm us.

The only lack that you will find,
 And this, we hope, quite to your mind,
 Is something to instruct our lawyers,
 We let them rust to make wood sawyers.

Our city! if you'd understand her,
 Call, sir, on "HUNTER & OSTRANDER,"
 To all our Press they'll introduce you;
 Their own "DIRECTORY" will so induce you,
 You must be blind, or run quite hard,
 Or, for next year, they'll have your card.

RHODES' Fever & Ague Cure,

FOR THE PREVENTION AND CURE OF
**INTERMITTENT AND REMITTENT FEVERS, FEVER AND AGUE, CHILLS AND
FEVER, DUMB AGUE, GENERAL DEBILITY, NIGHT SWEATS,**

And all other forms of disease which have a common origin in Malaria or Miasma.

This is a **NATURAL ANTIDOTE** which will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered for any length of time, from one day to twenty years, so that they need never to have another chill, by continuing in use according to directions. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

One or two bottles will answer for ordinary cases; some may require more. Directions printed in German, French and Spanish, accompany each bottle. Price One Dollar. Liberal discounts made to the trade.

JAMES A. RHODES, Providence, R. I.

EVIDENCE OF SAFETY.

"New York, June 11, 1855.

I have made a chemical examination of 'RHODES' FEVER AND AGUE CURE,' or 'ANTIDOTE TO MALARIA,' and have tested it for Arsenic, Mercury, Quinine and Strychnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurious to the constitution.

JAMES R. CHILTON, M. D., Chemist."

EVIDENCE OF MERIT.

"Lewisburg, Union Co., Pa., May 2, 1855.

MR. J. A. RHODES—Dear Sir: The box of medicine you sent me was duly received on the 11th of April. I have sold about one half of it, and so far the people who have used it are satisfied that it has cured them. It has certainly stopped the Ague in every one who has used it, and six of the cases were of long standing. My sister, who has had it for five or six years back, and could never get it stopped except by quinine, and that only as long as she would take it, is now, I think, entirely cured by your remedy.

C. R. MCGINLY."

CAUTION TO AGUE SUFFERERS.

Take no more Arsenic, Tonics, Mercury, Quinine, Febrifuges, Strychnine, or Anti-Periodics of any kind. The well known efficiency of these noxious poisons proves them either to be the offspring of false medical principles, or of mercenary quacks. The only remedy in existence that is both sure and harmless, is

RHODES' FEVER AND AGUE CURE.

EVARTS' PATENT

SHINGLE MILL.

EVARTS & BUTLER
PROPRIETORS AND MANUFACTURERS.

**SHOP, NORTH END WELLS STREET BRIDGE,
 CHICAGO, ILL.**

The smoothness of the work, which gives this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy-five cents per thousand higher* than any other sawed shingles.

This Mill is made entirely of Iron—strong, simple, and of the best workmanship, easily worked, and not liable to get out of order.

Plantation and Locomotive,.....	" 40 to 150 lbs.
Engine, Hose Cart and Hotel,.....	" 5 to 40 lbs.
Finished Bells, turned or gilt, of any size.	

The above mentioned Bells are warranted to stand one year, with fair and proper usage; and should they fail within the year, with said good usage, we agree to re-cast the same, without charge, the old and new Bell deliverable at the foundry.

Orders solicited.

PRATT & CO.

BUFFALO FEMALE ACADEMY.

CHARLES E. WEST, L. L. D., PRINCIPAL.

The attention of the citizens of Buffalo is invited to this Institution. It is believed that when examined with regard to the character and excellence of its Teachers, its internal arrangements in grades to suit the scholarship of each pupil, its valuable Chemical and Philosophical Apparatus, the fit construction and locality of its buildings, and every other requisite for the education of girls, it cannot fail to give satisfaction.

Parents from abroad wishing to place their daughters under favorable circumstances in point of health, desirable social and domestic influences, and intellectual and moral stimulus, are invited also to consider the claims of this Institution to their patronage. It is believed that all the advantages here offered can nowhere be obtained at a cheaper rate. A limited number of pupils can be received into the family of the Principal.

The classification of students is such that pupils are received of all ages, from four years and upwards. It is desirable that little girls should commence there and go through a systematic course. This will secure a completeness of education which cannot otherwise be so well obtained.

Young ladies desirous of pursuing a partial course, as the study of the languages, or the higher branches of English education, will here find the opportunity of carrying out their wishes.

This institution has already received a most encouraging amount of public favor, and the Trustees would express the hope that this crowning seal upon their efforts may continue to be given them.

The year is divided into four terms—the beginning of each being as follows :

The First Term on Monday the 12th of September. The Second on the 21st of November. The Third on the 6th of February. The Fourth on 1st of May.

For further particulars, Circulars may be obtained on application, by mail or otherwise, to the Principal or to the following

ZINC PAINTS.

MANUFACTURED BY THE

NEW JERSEY ZINC COMPANY.

PRATT & Co., 28, 30 & 32 Terrace St., BUFFALO, N. Y.

AGENTS FOR THE COMPANY.

CASH PRICES.

No. 1, or SNOW WHITE, ground in Oil,	10	cts. per lb.,
STONE COLOR, " "	8	cts. "
BROWN ZINC, " "	7	cts. "
BLACK do for Steamers and Vessels,	7	cts. "
WHITE GROUND, in varnish for Porcelain finish,	16	cts. "
No. 1, or SNOW WHITE, dry in bbls. of 200 lbs.,	7½	cts. "
Less.....discount to dealers.		

DIRECTIONS FOR USING:

The Paints manufactured by the N. J. ZINC CO. and ground in Oil, are to be used precisely like White Lead, thinning them for outside work with Linseed Oil, and for inside use with Spirits of Turpentine or Oil, having enough siccativc mixed with the Paint in the keg to make it dry in Summer in 24 hours. In *Winter* a small quantity of some of the ordinary dryers should be added.

FOR PORCELAIN FINISH.—Thin the Zinc, *ground in Varnish*, with enough Damar (white) Varnish to make it work free, and apply it only upon a *pure white ground*, recently painted with Zinc, and thoroughly dried. If the first coat does not produce a sufficient gloss, apply a second.

On new inside work it is recommended to apply first a coating of Gum Shellac, to prevent the sap or pitch of the wood from staining the paint, made as follows: To 1 gallon of Alcohol add about 2 lbs. of Gum Shellac; dissolve by a gentle heat, then add about 2 lbs. dry White Zinc, and strain before using. It will dry in five minutes, and will pay the cost of its application, by the saving of paint in finishing the work.

WHITE ZINC PAINTS, both dry and in oil, should be kept in a dry place, and never be covered with water in the keg, as it will cause the paint to harden.

Fifty lbs. Zinc will cover as much surface as 70 to 90 lbs. of lead, according to the nature of the surface, and style of work.

The Paints *ground in oil*, are put up in kegs of 25, 50, 100, 200 lbs. and upwards. *Ground in varnish*, in cans of 10 to 25 lbs. each.

DRY WHITE ZINC in barrels of 200 lbs. each.

Pamphlets, giving full history, description, and the highest testimonials, forwarded, free, on application.

Orders solicited.

PUBLISHERS' NOTICE.

It will be observed that Messrs. PRATT & Co., 28, 30 and 32 Terrace street, Iron and Hardware Merchants, occupy a large number of pages in our Directory. We should expect, from this liberal method of advertising, a sure, permanent and increasing return, and we are happy to understand that this is their experience. Judicious advertising is the greatest possible economy. How can a Business House, situated in a place like Buffalo, compete with others in like trade, in the large cities, without taking effectual means to let it be *known* that the House is in existence, and that it *has the stock to sell*? The buyer must be informed, in some way, *where goods are*, or he cannot purchase them. We verily believe that the standing and success of Messrs PRATT & Co. are a guaranty that the method they adopt in this respect, together with their high talent of conducting business, their enterprise and promptness, in not only planning but *executing* what they plan, and their firm, independent and honest character is worthy of imitation by every business man.

The establishment above spoken of is one of the best systemized, and most extensive in this country. And what it has done and is accomplishing in the Iron and Hardware business may be obtained in our city in any legitimate branch of trade. We should like to see the jobbing business of Buffalo vastly increased, in all the great staples of trade. We have some very heavy dealers already in various branches, but the business of the place may be greatly increased by proper appliances. Among the essential aids of jobbing is *manufacturing*. No parties understand this better than Messrs. P. & Co. Hence we find them acting as *agents*, and in every way encouraging some of our heaviest manufacturing establishments. They are thus connected with the "*La Fayette Brass and Bell Foundry*," an establishment manufacturing all kinds of Brass Work, Bells, Leather Belting, &c.; with the "*Niagara Steam Forge*," which uses "*Nasmyths & Watts*" Steam Hammers,—there are four Trip Hammers, and other machinery, making its own Iron, and turning out all kinds and all weights of hammered shapes. Also, with the "*Niagara Pail and Tub Factory*" located in this city, which is in the full tide of successful operation, producing large quantities of the most beautiful and substantial ware. They are also connected with the "*Buffalo Rolling Mill and Nail Factory*," the extent and perfection of which is not dreamed of by the mass of our citizens; also with the "*Buffalo Bellows Factory*," an institution which turns out *fifteen hundred* Blacksmith's Bellows per annum, all of which are sold by Pratt & Co. But this is not the extent of the business of said firm; they do not confine themselves to the "home industry" alone; their immense trade has been gathered in from all quarters of the country, but more particularly from the Canadas and Western States. They open the very best market for many of the largest manufacturing establishments in other places, thereby demonstrating that Buffalo is a point at which not only a large manufacturing but also a large jobbing business can be done.

We are told that the firm of Messrs. P. & Co., has during the past year done a business to the amount of \$1,500,000. They employ in their store about ninety men, all of whom are men of good moral character and competent businessmen, many of them with families. So that every establishment of this description adds essentially to the population, home trade, activity and prosperity of our city.

NEW YORK
TYPE FOUNDERY
AND
PRINTERS' WAREHOUSE.

WHITE & COMPANY,
(SUCCESSORS TO JOHN T. WHITE,)
NO. 65 BEEKMAN STREET,
CORNER OF GOLD.

This being one of the oldest and most extensive Foundries in
America, with

A VERY LARGE STOCK

Embracing every variety, to which large additions have recently been
made,

ORDERS OF ANY MAGNITUDE

Can be executed without delay, and upon the most favorable terms.

THE HIGH REPUTATION

Which this establishment has attained is in a great measure due to the
attention which has been given both to the quality of metals and care
in manufacturing.

OFFICES ENTIRE,

Including PRESSES and every article requisite, can be furnished at the
shortest notice.

THE OLDEST TYPE FOUNDRY IN AMERICA.

Established by Binny & Ronaldson, in 1796, on the base of Sower's Germantown Foundry of 1739.

The long experience of the several Proprietors of the PHILADELPHIA TYPE FOUNDRY enables

L. JOHNSON & CO.

To offer to the Printing Craft the largest variety of Types, and all the appurtenances of a Printing Office, to be found in any establishment in the United States—and of a quality, too, which is deemed to be unrivaled. The composition of the metal used is calculated to afford the greatest durability, while the scrupulous care exercised in the fitting up of the Type is such as to insure accuracy and squareness of the body, &c.

L. JOHNSON & CO'S facilities are so extensive as to enable them to fill orders of any amount, either in

PLAIN OR FANCY TYPES

MUSIC OF UNPARALLELED BEAUTY,

(CAST IN THIS FOUNDRY ONLY.)

SCRIPTS, FLOWERS, BORDERS, CUTS,

Brass or Metal Rules, Brass Braces, Labor-Saving Rules, &c.

PRESSES OF ALL KINDS,

And all sorts of PRINTING MATERIALS, (most of which are made by L. J. & CO.) will be furnished at manufacturers' prices.

STEREOTYPING

In ancient or modern languages, from the largest volume to the smallest label

ELECTROTYPING

Of Books, Wood Cuts, Jobs, &c. &c.

TYPE USED IN STEREOTYPING FOR SALE AT REDUCED PRICES.

Wood Cuts designed and engraved in the finest style and art.

L. J. & CO'S "MINOR SPECIMEN BOOK" (acknowledged to be the first of its class in the country, and original in its conception and getting up,) will be sent to all printers who have not received it, who direct how it may be transmitted.

Newspaper Printers who publish this advertisement entire three times before Sept. 1st, 1855, and send us a copy of the paper containing it, will be allowed their bills on purchasing Type to four times its amount.

L. JOHNSON & CO., No. 6 Sansom St.,
